THE PITTSBURG MICROPOLITAN AREA ECONOMIC REPORT

The Pittsburgh Micropolitan Area is Poised for Growth

INCREASES IN LABOR FORCE participation and the employment-population ratios usually leads to higher incomes. The labor force and employment are currently growing faster than the population in the Pittsburgh Micropolitan Area, labor force participation is increasing, unemployment is declining, and welfare rolls are shrinking. Approximately 14.7 percent of local residents work outside the micropolitan area. The number of locals who are employed (in the micropolitan area or outside) increased 3.4 percent during the first seven months of 2014, while employment increased

1.3 percent statewide and 1.2 percent nationwide.

This trend is expected to continue according to Demographics Now. Labor force participation in the Pittsburgh Micropolitan Area is expected to increase from 63.9 percent in 2014 to 66.7 percent in 2019 (compared to 61.7 percent to 62.6 percent nationwide), the employment-population ratio from 60.3 percent to 63.7 percent (compared to 57.2 percent to 59.3 percent nationwide) and the per capita income is expected to increase to \$23,972 (excluding imputed income) in 2019, up 17.6 percent (compared to 15.2 percent

increase nationwide).

The micropolitan area population is relatively well educated. A recent US Census Bureau report states that more than 59 percent of the local population have education beyond high school, compared to 57.8 percent nationwide. Approximately, 13.4 percent of the area residents work in office and administrative occupations, 10.7 percent in sales-related, 10.1 percent in health care, 8.7 percent in production, 7.5 percent in management, 7.5 percent in food service, 6.2 percent in construction and extraction and 3.1 percent in computer, engineering and science.

TOTAL JOB GROWTH

The 982 business establishments in the Pittsburgh Micropolitan Area paying unemployment insurance reported that the average number of jobs during the first quarter of 2014 was 16,778 jobs (down by one job since the first quarter of 2013) with a total quarterly payroll of \$133.3 million (down 0.9 percent).

The good news is that the wealth-creating, goods-producing industries did well during the quarter and posted the average number of jobs at 2,924 (up 79 jobs) with a payroll during the quarter of 26.9 million (up 5.6 percent) and average monthly wages of \$3,064 (up 2.7 percent). The service-producing industries posted the average number of jobs at 9,519 (down 67 jobs) with a quarterly payroll of \$68 million (down 3.0 percent) and average monthly wages of \$2,382 (down 2.3 percent), and government posted 4,334 jobs (down 0.3 percent) with a quarterly payroll of \$38.4 million (down 1.3 percent) and average monthly wages of \$2,953 (up 1.2 percent). The number of jobs increased 1.4 percent statewide during the quarter and 1.7 percent nationwide

Number of Jobs The Pittsburgh Micropolitan Area

Source: Bureau of Labor Statistics

UNEMPLOYMENT

The number of people that register as unemployed in the Pittsburgh Micropolitan Area continues to decline despite a robust increase in the local labor force, indicating that locals are finding employment faster than the labor force is growing. The Bureau of Labor Statistics (BLS) conducts a monthly household survey which is used to estimate the size of the labor force, unemployment, and employment. It shows that during the first seven months of 2014 there were average of only 1,129 people unemployed locally. This is a 7.9 percent decline in the number of unemployed locals from the same period last year. The survey also indicated that there were 20,776 Pittsburgh-area residents who said they were employed during the period (includes jobs, self-employment, home-based businesses, farm employment, and domestic employment), up 3.4 percent from the same period in 2013.

The unemployment rate was 5.6 percent in the micropolitan area in July 2014 (down from 6.1 percent in July 2013), 5.4 percent statewide (down from 6.0 percent) and 6.5 percent nationwide (down from 7.7 percent).

Job Growth

Pittsburg Micropolitan Area Q1 2014

Source: Bureau of Labor Statistics

JOB GROWTH BY INDUSTRY

Professional and Business Services added the most jobs nationwide during the first quarter (up 523,070 jobs from Q1 last year) as well as statewide (up 8,105 jobs). Trade, Transportation, and Utilities had the largest increase in jobs during the first quarter in the Pittsburg Micropolitan Area (up 48 jobs), followed by Manufacturing (up 42 jobs), Construction (up 36 jobs), Financial Activities (up 13 jobs), Leisure and Hospitality (up 12 jobs), local governments (up 7 jobs) and Natural Resources and Mining (up one job). State government was down two jobs, followed by Information (down 15 jobs), federal government (down 19 jobs), Other Services (down 21 jobs), Education and Health Services (down 22 jobs) and Professional and Business Services (down 82 jobs).

However, more professional jobs are in the pipeline locally. Miller's Professional Imaging, the largest photo lab organization in the US, announced in August that it will expand its operations by 6000 square feet of storage space, expand the shipping area and add 140 jobs.

Growth in Payroll

Pittsburg Micropolitan Area Q1 2014

Source: Bureau of Labor Statistics

INCOMES BY INDUSTRY

The industry posting the highest average monthly income nationwide during the first quarter was Financial Activities with \$9,167 (up 9.9 percent from Q1 2013); the statewide industry with the highest average monthly income was Information with \$7,550 (up 11.7 percent).

State government had the highest income in the Pittsburg Micropolitan Area during the quarter, posting an average monthly income of \$4,594 (up one percent), followed by the federal government, \$4,265 (up 3.4 percent); Information, \$3,767 (down one percent); Professional and Business Services, \$3,483 (down 7.7 percent); Natural Resources and Mining, \$3,318 (up 9.2 percent); Manufacturing, \$3,124 (up 2.6 percent); Financial Activities, \$3,103 (up 0.7 percent); Education and Health Services, \$2,754 (down 0.2 percent); Construction \$2,671 (up 3.0 percent); Trade, Transportation, and Utilities, \$2,485 (up 0.2 percent); local government, \$2,333 (down 2.2 percent); Other Services, \$1,809 (down 5.4 percent); and Leisure and Hospitality, \$810 (down 4.9 percent).

LABOR FORCE

The average labor force in the Pittsburgh Micropolitan Area was 21,404 during the first seven months of 2014, up 2.7 percent from the same period last year. The average labor force stood at 1,419,721 statewide during the period (up 0.5 percent) and 155.3 million nationwide (down 0.1 percent). The labor force participation nationwide continues to decline. The average labor force participation nationwide has declined significantly since 2007. It was 62.9 percent during the first seven months (down from 66.1 percent during the same period in 2007), 69.3 percent for men (down from 73.3 percent) and 57.1 percent for women (down from 59.2 percent).

The July labor force stood at 21,414 in the Micropolitan area (up 1.1 percent from July 2013), 1,436,655 statewide (up 0.8 percent) and 156 million nationwide (down 0.7 percent).

Labor Force Pittsburg Micropolitan Area

TAXABLE SALES

Taxable sales (retail, food service, and other categories) seem to be picking up in the Pittsburgh Micropolitan Area, with taxable sales increasing to \$37.1 million in June of 2014, up 6.7 percent from June 2013, which is well above the 4.4 percent increase statewide and 4.3 percent increase in retail and food service sales nationwide. Overall, total taxable sales in the Micropolitan area increased to \$206.8 million during the first six months of 2014 (up 3.0 percent from the same period last year), \$154.0 million in the City of Pittsburgh (up 1.7 percent), \$20.1 billion statewide (up 5.0 percent) and \$2.6 trillion nationwide (up 3.6 percent).

Overall national retail sales were not very robust, despite some uptick in nationwide employment, because approximately 75 percent of the new jobs added this year have been part time, according to the Reuters News Agency.

Growth in Taxable Sales

Jan-June 2013 to Jan-June 2014

Total Value of Residential Permits City of Pittsburgh

Source: City of Pittsburgh

RESIDENTIAL PERMITS

A total of 36 homes sold in the Pittsburgh area in August 2014, according to the Pittsburgh Realtors Association, for an average price of \$89,485 (up 33.1 percent from June 2013) and the median price of \$77,500 (up 36.6 percent). There were 283 active listings on the multiple listing service in August with 46 pending contracts (up 48.4 percent). Overall, 234 homes sold during the first eight months of the period (down 21.7 percent from the first eight months of 2013), for an average sales price of \$83,918 (down 1.2 percent) and a median price of \$64,750 (up 0.2 percent).

The City of Pittsburgh reports that 73 residential permits were issued during the first six months with a stated value of 2.8 million, up 4.0 percent from the same period last year. This includes 13 new residential permits with a stated value of \$2.4 million (up 14 percent) and 60 permits for additions, alterations, and conversions, with a stated value of \$458,963 (down 28.2 percent).

Total Value of Commercial Permits City of Pittsburgh

Source: City of Pittsburgh

COMMERCIAL PERMITS

One new major building permit is in the pipeline in Pittsburgh. Miller's Professional Imaging, which announced in August that it is expanding, will expand its operations by 6000 square feet of storage space and expand its shipping area.

Four new commercial permits were issued during the first two quarters of the year in Pittsburgh, with a stated value of \$1.4 million (down 34.8 percent from the first two quarters of last year), and 20 commercial permits were issued for additions, alterations, and conversions with a state value of \$1.6 million (up 123.3 percent). Overall, 24 commercial permits were issued during the period in Pittsburgh, with a stated value of \$3.0 million, up 5.8 percent from the first two quarters of last year.

OFFICE SPACE MARKET

Polèse & Shearmur in a 2005 study find that easy access to business services is one of the most important factors conducive to regional growth. Regional businesses need to be able to tap into services such as accounting, tax preparation, bookkeeping, payroll services, office administrative services, management and technical consulting services, legal services, and medical services, to name a few. As the regional business center for southeast Kansas, Pittsburg provides access to these office-based business services. That access is vital for regional economic growth.

A healthy office market in the Pittsburg area is important in order to attract office-based professional “business support firms” to the region. Rental rates for mid-size space in the Pittsburg start now at \$5.50 per square foot on gross bases (up from \$5.00 last year) to about \$10 per square foot, but can go up to as much as \$16 per square foot for some medical office space.

Gross Office Space Rental Rates

Pittsburg Area

Source: Jones Heritage Realtors

COMMERCIAL AND MULTI-FAMILY LAND VALUES

North Broadway continues to be the most expensive commercial land in Pittsburg, with sales prices around \$10-11 per square foot. South Broadway still lags behind North Broadway, having more vacant land available with prices considerably below North Broadway. However, the hospital expansion, the future building of a new hotel facility on South Broadway, and the anticipated opening of the Bicknell Family Center for the Arts and the Robert W. Plaster Center at Pittsburg State University should stimulate activity in south Pittsburg and have positive impact on land prices. The market for commercial and industrial land and space is somewhat active, with three recent sales: a nursing complex on the corner of Centennial and Rouse sold for \$490,000, or about \$5.0 per square foot; a suburban manufacturing complex at 520th and Highway 69 sold for \$615,000 or about \$8.0 per square foot, and a basic storage warehouse sold for \$11.25 per square foot.

Finally, residential multi-family building sites still generally sell for \$1.00-\$2.00 per square foot, but the price can go up to \$3.00 per square foot depending on location.

Multi-Family Land Prices

Pittsburg Area

Source: Jones Heritage Realtors

Retail Space Rental Rates

Pittsburg Area, September 2014

Source: Jones Heritage Realtors

RETAIL SPACE MARKET

There was an increase in the availability of small strip mall space which could lead to reduced pricing in the fourth quarter of 2014, although most asking prices are still around \$12.00 per square foot on gross lease bases. Furthermore, the future opening of the two new restaurants in the North Broadway business area (Buffalo Wild Wings and Rib Crib) may boost activity in the retail space market at year end.

Two sales were completed recently: a downtown retail building on 4th Street just off Broadway with two apartments above sold for just under \$ 21 per square foot (including the apartments) or just over \$41 per square foot if only the lower level retail space is considered, and a small strip mall sold on Walnut Street for about \$33 per square foot. Retail space rental rates are edging up for larger properties.

Total Bankruptcies

Pittsburg Micropolitan Area

Source: US Bankruptcy Courts

BANKRUPTCIES

A total of 8,040 bankruptcies were filed statewide during the 12 month period ending in July 2014 (down 7.1 percent), including 4,749 Chapter 7 personal bankruptcies (straight bankruptcy, debt wiped out), down 10.5 percent; one Chapter 11 personal bankruptcy (reorganization of personal debt and temporary protection from creditors), down 83.3 percent; and 3,100 Chapter 13 personal bankruptcies (some of the debt wiped out and some repayments), down 0.9 percent. Business bankruptcies declined 11.6 percent statewide to 190 business bankruptcies during the period, including 117 Chapter 7 business bankruptcies (total liquidation with no repayments), down 8.6 percent; 29 Chapter 11 business bankruptcies (reorganization of business debt and temporary protection from creditors), down 39.6 percent; 11 Chapter 12 business bankruptcies (reorganization of debt for family farms), same as the previous period, and 33 Chapter 13 business bankruptcies (total liquidation with some repayments), up 17.9 percent.

There were 58 bankruptcies filed in the Pittsburg Micropolitan area during the period (up 11.5 percent), including one Chapter 13 business bankruptcy (up from zero), 46 personal Chapter 7 bankruptcies (down 2.1 percent), and 11 personal Chapter 13 bankruptcies (up 120 percent). Nationwide, a total of 30,113 business bankruptcies were filed (down 16.5 percent) and 969,970 personal business bankruptcies (down 12 percent).

The Pittsburg Micropolitan Area Banking Industry

Source: Federal Deposit Insurance Corporation

BANKING INDUSTRY

The performance of the Pittsburg Micropolitan Area banking industry is improving significantly. The Federal Deposit and Insurance Corporation (FDIC) reports that net operating income increased to \$3.4 million during the first six months of 2014, up a significant 50.7 percent from the same period last year. Furthermore the local industry reported total assets of \$757.5 million (up 5.0 percent), net loans and leases of \$467.5 million (up 4.8 percent), and earnings assets of \$714.8 million (up 5.3 percent). However, non-current loans and leases increased to \$7.7 million, up 0.3 percent.

The national industry is also improving, with the number of problem banks down 60 percent since 2011, posting \$14.1 trillion in assets in June (up 5.7 percent during the period), \$10.7 trillion in deposits (up 7.1 percent), \$167.3 billion in non-current loans (down 24.3 percent), and net operating income of 71 billion (down 0.5 percent).

Total Assets

Pittsburg Micropolitan Area Credit Union Industry

Source: National Credit Union Administration

CREDIT UNIONS

The National Credit Union Administration (NCUA) reports that the Pittsburg Micropolitan Area credit union industry posted \$46.8 million in total loans and leases at the end of the second quarter of 2014 (up 0.2 percent from June 2013), \$80.4 million in total assets (up 2.7 percent), and \$209,277 in net income (down 21.9 percent).

The nationwide industry did well during the second quarter of 2014. The 6,429 credit unions nationwide reported a decline in bankruptcy losses, increase in membership to over 98 million, increase in net worth of 7.1 percent from the second quarter of 2013, increase in total loans to \$673.8 billion (up 9.8 percent), increase in total assets to \$1.1 trillion (up 4.5 percent), increase in total interest income to \$18.1 billion (up 3.7 percent) and an increase in net income to \$4.4 billion (up 0.1 percent).

Occupancy Rates

Pittsburg Lodging Industry

Source: Pittsburg Chamber of Commerce and Smith Travel Research

LODGING INDUSTRY

Occupancy rates in the Pittsburg lodging industry have increased significantly in 2014 and have been higher every month this year compared to 2013. The average occupancy rate was 68.5 percent in Pittsburg in July, (up from 61.3 in July 2013), 59.0 percent in Southeast Kansas (up from 57.8 percent), 65.7 percent statewide (up from 63.4 percent) and 73.6 percent nationwide (up from 70.9 percent). The average daily room rate was \$80 in Pittsburg in July, \$64.7 in Southeast Kansas, \$80.6 statewide, and \$117.9 nationwide.

An improvement in performance of the lodging industry is good news for the economy because incomes in the industry represent a net infusion of funds into the local economy. The overall average occupancy rate for the first seven months of the year was 63.1 percent in Pittsburg (up from 55.2 percent during the same period last year), 53.6 percent in Southeast Kansas (up from 52.1 percent), 59.2 percent statewide (up from 55.6 percent) and 65 percent nationwide (up from 62.9 percent).

Purchasing Power

of \$100 in 2014

Compared to National Average

Source: The Council for Community and Economic Research

COST OF LIVING

High incomes do not always mean high purchasing power. A recently released report on purchasing power by the Tax Foundation states that the real purchasing power of a \$100 bill is on average 28.4 percent higher in Kansas than New York. This shows that incomes can be a deceptive indicator of quality of life.

Pittsburg is a regional center for business and commerce in southeast Kansas and local residents enjoy a relatively low cost of living of 91.1 percent, according to the Center for Regional Economic Competitiveness. Pittsburg's cost of groceries is only 91.5 percent of the national average, housing 76.9 percent, utilities 111.6 percent, transportation 93.3 percent, health care 90.8 percent, and 95.1 percent for other miscellaneous goods and services (appliance repair, clothing, dry cleaning, movies, alcohol, etc.).

BUSINESS HIGHLIGHTS

PITTSBURG GROUP SEEKS PUBLIC INPUT ON MAKING CITY MORE BICYCLE AND PEDESTRIAN FRIENDLY

A Missouri based non-profit called, "PedNet" has been hired by Live Well Crawford County to create a Bicycle and Pedestrian Master Plan for the city. The plan will evaluate current conditions and plan for a new infrastructure like trails and sidewalks. The project will take one-year to complete and will cost \$39000. Live Well Crawford County is paying for the plan with a grant from the private philanthropic group Kansas Health Foundation. Officials say it could contribute to the health of citizens and the health of the economy.

Kelly Reid, KOAM 9/5/2014

SEK TO BENEFIT TO TUNE OF NEARLY \$84 MILLION IN STATE ROAD PROJECTS

Southeast Kansas is earmarked for nearly \$84 million of \$1.2 billion the Kansas Department of Transportation is spending statewide on transportation projects. "The construction work will create jobs for hundreds of workers, who will spend their paychecks in communities all over the state, spreading the benefits far beyond the construction industry," King said in a news release. "But the better news is the long-term job prospects these improvements will help make."

The transportation projects focus on 464 road stretches and 194 bridge/interchange efforts that will cover an estimated 1,600 miles of Kansas highways.

Andra Stefanon, Joplin Regional Business Journal, 8/28/2014

CRAWFORD COUNTY LEADERS DISCUSS CASINO PROPOSAL

PITTSBURG, KS.--- According to the Downstream Casino Board, a new casino is what Crawford County needs in order for the community to generate more money. Kansas state representatives agree, saying a new casino will have an economic impact on the area and could create roughly 300 jobs. \$50 million have already been invested by Downstream Casino, as well as Ruffin Companies. A bid still needs to be placed, but the board is hoping to get a license for the casino by the end of this year.

Nexstar Broadcasting, Inc. All rights reserved.

CITY PLANS CAPITAL PROJECTS

The City of Pittsburg has a road map for the next five years of capital projects to the tune of \$58 million. City commissioners passed a capital improvement that lays out a vision for the next five years of major improvements.

"This has been something we've wanted to do since I got here," said Daron Hall, Pittsburg city manager. "The staff was instrumental in pulling together all of the list. When you hear capital improvement plan, people think cars, backhoes and buildings. This is strictly long-term, permanent, fixed assets: buildings, streets, streetlights, things affixed to the community."

The items on the plan add up to nearly \$58 million in projects, but the summary page notes that only roughly \$33.5 million is accounted for in city plans. The remainder, roughly \$24.5 million, is unfunded.

The Morning Sun, 9/17/2014

THE REAL VALUE OF \$100 IN EACH STATE

Recent tax map shows the real value of \$100 in each state. Because average prices for similar goods are much higher in California or New York than in Mississippi or South Dakota, the same amount of dollars will buy you comparatively less in the high-price states, or comparatively more in the low-price states. Kansas offers \$111.23 as the relative value of \$100.00. The report shows that the average New York resident pays significantly more in taxes than the average Kansas resident but the Kansas resident actually has higher purchasing power.

For more information on the real value of \$100.00 visit taxfoundation.org.
