OER Women in Math Course

Dr. Cynthia Huffman, Mathematics

Description

In 2018, Dr. Huffman received an Open PITT grant to create a complete Open Educational Resources (OER) Canvas Course. The proposal involved the creation of a Women in Mathematics course that did not require a textbook, which would be shared via Canvas Commons. The course takes a look at 11 notable women mathematicians through readings, quizzes, discussion boards, and activities related to the mathematical contributions of the women. Several of the activities are original and can be found separately at Pittsburg State University Digital Commons (<https://digitalcommons.pittstate.edu/> - search by author for Huffman, Cynthia).
