## PREFACE

Because of the difficulty in deciphering the script of the enumerators your compiler had trouble with the correct spelling of some of the names. In case of doubt a question mark has been placed after a name to indicate a questionable spelling.

You will often find whole names a bunch of question marks. Apparently the original record sheets had been wet and the ink ran or was obliterated altogether. Several pages were so bad that only one or two families could be recorded. Hence, this is not a complete record.
