Academic Library Challenges

- Print Journals Collections Declining
- Journal Price Increases
 - 521% since 1986
- Flat or Cut Budgets
- Space Problems
- Never-ending need for access to timely and relevant peer reviewed journals

PSU's Challenges & Goals

- Flat budget, journal cost increases, space issues
- Increase availability of relevant online journals to support PSU's curriculum and research
- Remove unnecessary duplication of open access journals among databases
- Dead links of open access journals in ERM
- Irrelevant open access journals in ERM

Goal: Rightsizing PSU journals collection, including open access

Overlap Between Collections

- Do an overlap analysis to reveal overlap of journals between collections.
- Examine the URLs of different sources of open access journals.
- Delete duplicates.

Rightsizing Open Access Journals in Academic Libraries: Enhancing the Discovery and Research Experience

By Barbara M. Pope, MALS
Periodicals/Reference Librarian
Pittsburg State University, Pittsburg KS

Usage Statistics

- Examine usage statistics for usage on journals which are not subscriptions. Are they open access titles? Titles in blue are subscriptions, while those in yellow are open journals.
- Are they relevant to the university curriculum and research research needs? Are they peer reviewed?
- Since they are already being used, that speaks to the need for the content. The usage of all added journals has increased.

Conclusion

- Open access journals are a great way to expand your library's access to peer reviewed journals
- Support university curriculum and research needs
- Save money by not duplicating journals in different databases
- Increase access to journals patrons need and may already be using
- Decrease confusion of patrons who are overwhelmed with links

Caution

- Open access journals should be subject to collection development analysis
- Beware of predatory open access journals and check peer review status
- Value usage statistics
