PRESIDENT BUDD

The new president and family have varied interests.

Dr. Cope, Dean of Administration

Dr. Proctor, Dean of Graduate Studies
Dr. Tompkins, Dean of Instruction

Dr. Baird, Director of Admissions and Registrar
Dr. Tracy, Director of Placement Services

ADMINISTRATION

Dean Wright, Dean of Men
Dean Watson, Dean of Women

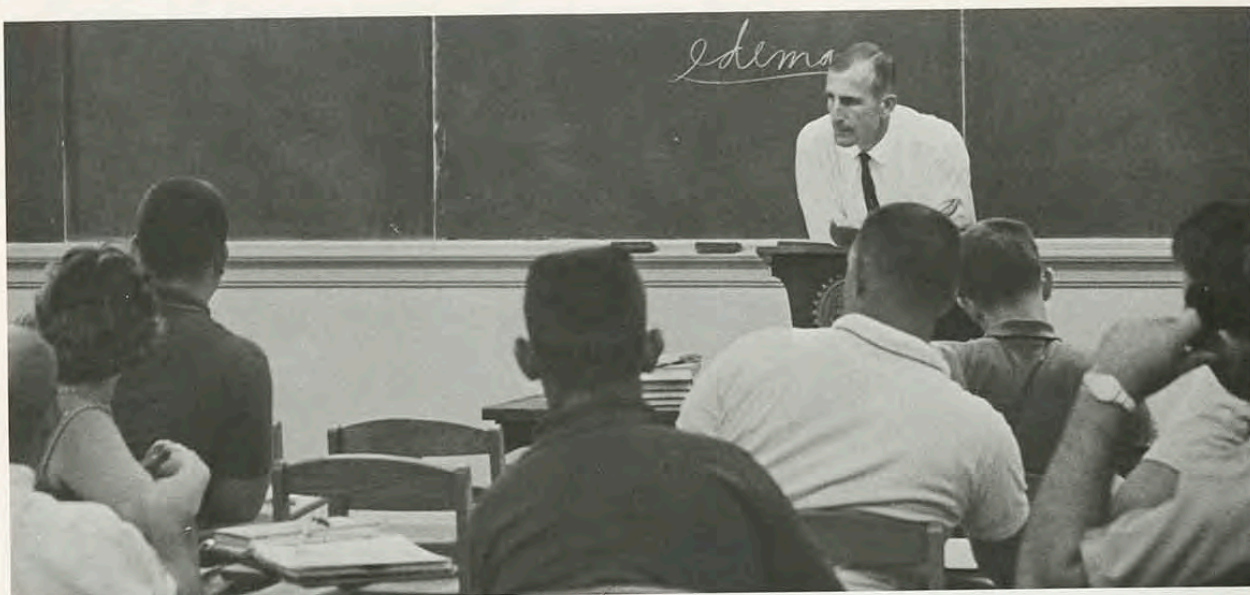

Certain areas of student life are the specific responsibility of the Dean of Men. Activities are arranged each year at the opening of the fall semester to help new students make a good start in college. Times and places for all college events are scheduled in his office. The Inter-fraternity Council meets each week in the office of the Dean of Men. While the responsibilities mentioned above are undertaken to provide a general constructive situation for college men, special problems arise for many students.

Mr. Carlyn, Plant Superintendent.
Mr. Beougher, Business Manager

The Dean of Women works with women students to provide a varied, worth-while activities program which will implement the goals of Kansas State College in promoting intellectual and cultural growth. The Dean of Women serves as an advisor to the Associated Women Students and the Panhellenic Council. She also works with the directors and officers of the residence halls to develop effective governing councils and advisory boards. The Dean of Women is also responsible for the training of residence hall counselors.

Students listen attentively to a discussion in class.

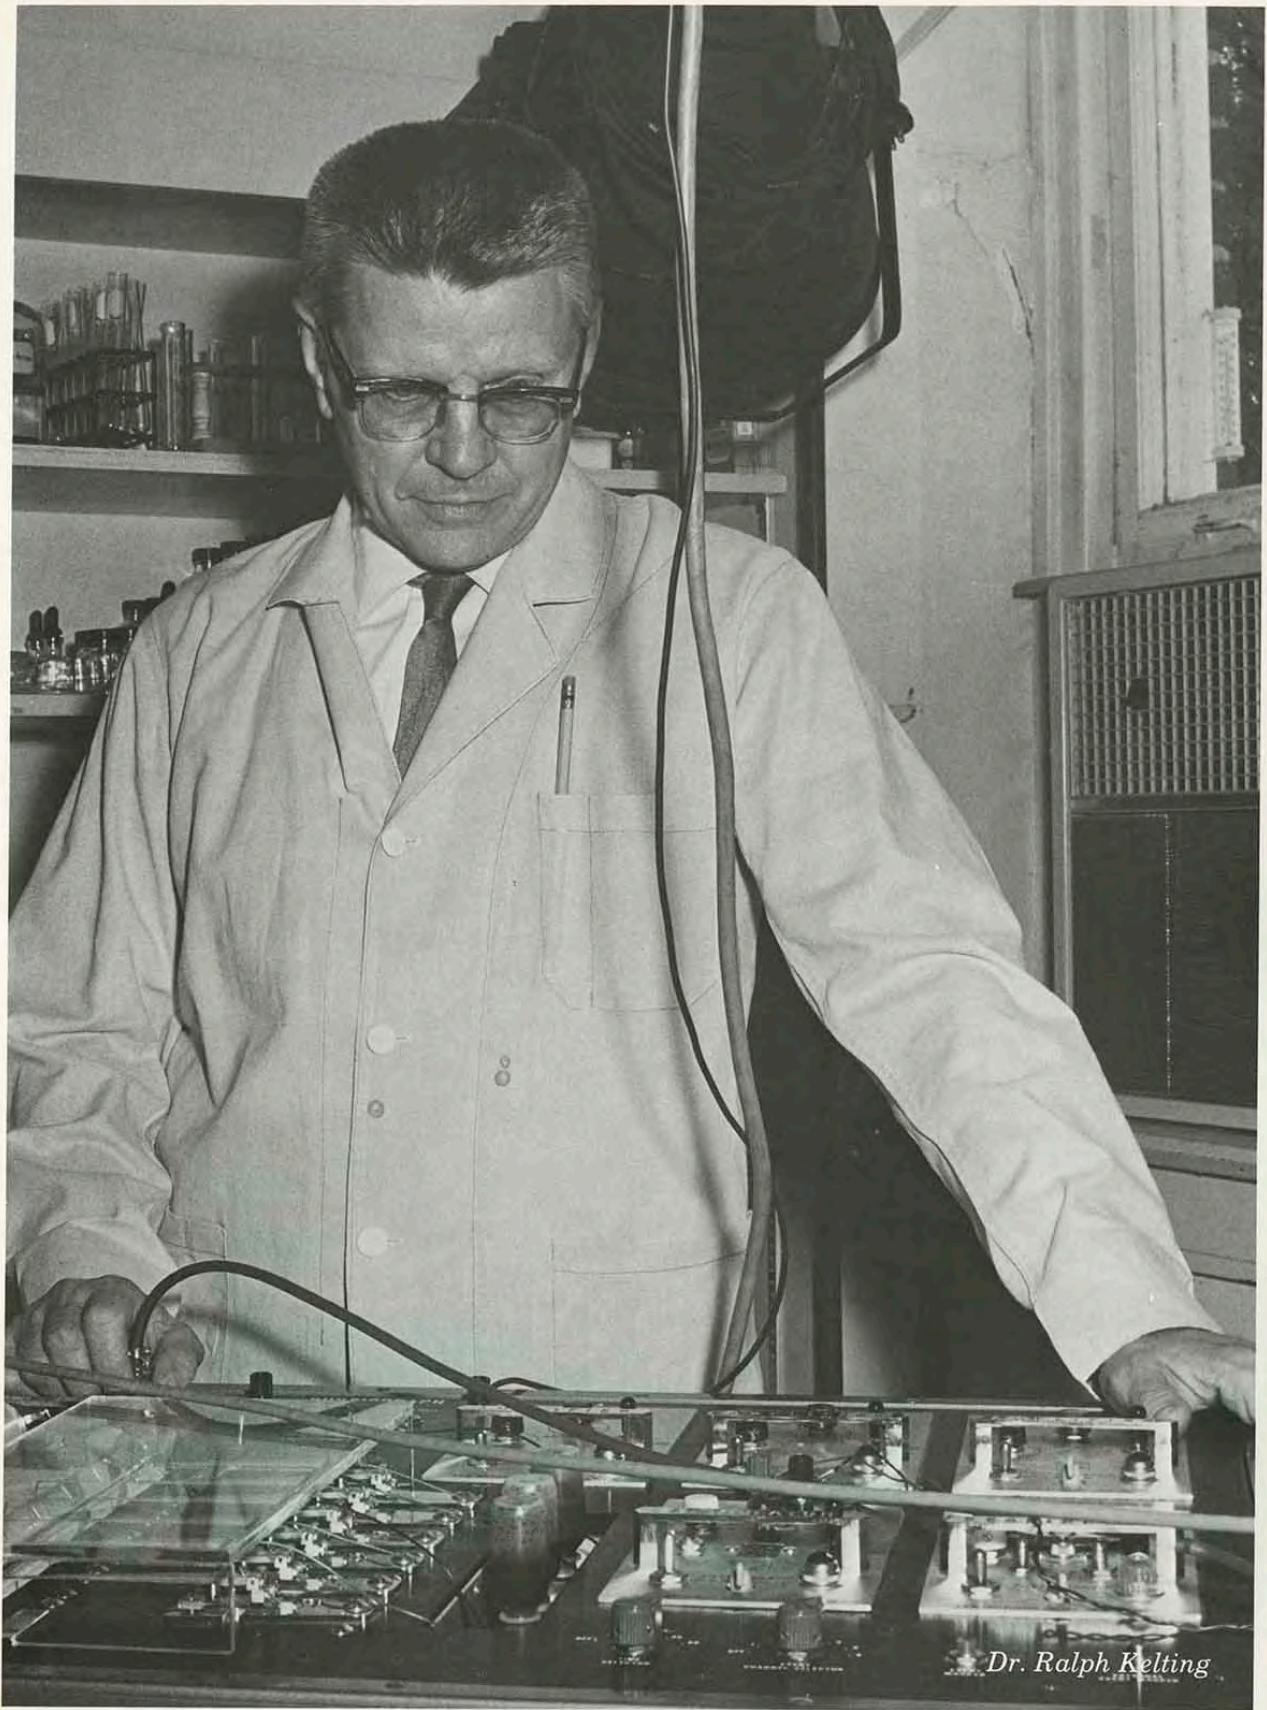

BIOLOGY

The Biology department receives many research grants for graduate students and professors. This year, the department is working with six \$400.00 stipends for undergraduate research.

The Kansas State College Biology department offers a series of pre-professional degrees, ranging from pre-medical to pre-forestry. Most of these are two year courses. They also offer a Master of Science in Biology or Natural Science.

This department is staffed with eleven professors and operates in ten lab rooms. In addition to the lab rooms, which are well equipped for a smaller college, they have a seventy-acre field lab.

The first floor of Russ Hall begins to crowd between classes.

Dr. Ralf Thomas, head of business department.

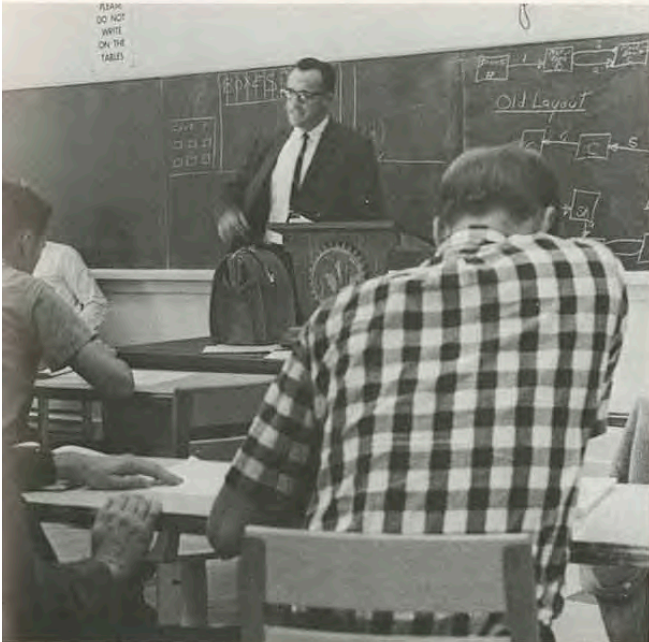

BUSINESS ADMINISTRATION

Typing is an essential part of the business curriculum.

The Business department offers a class in programming and management.

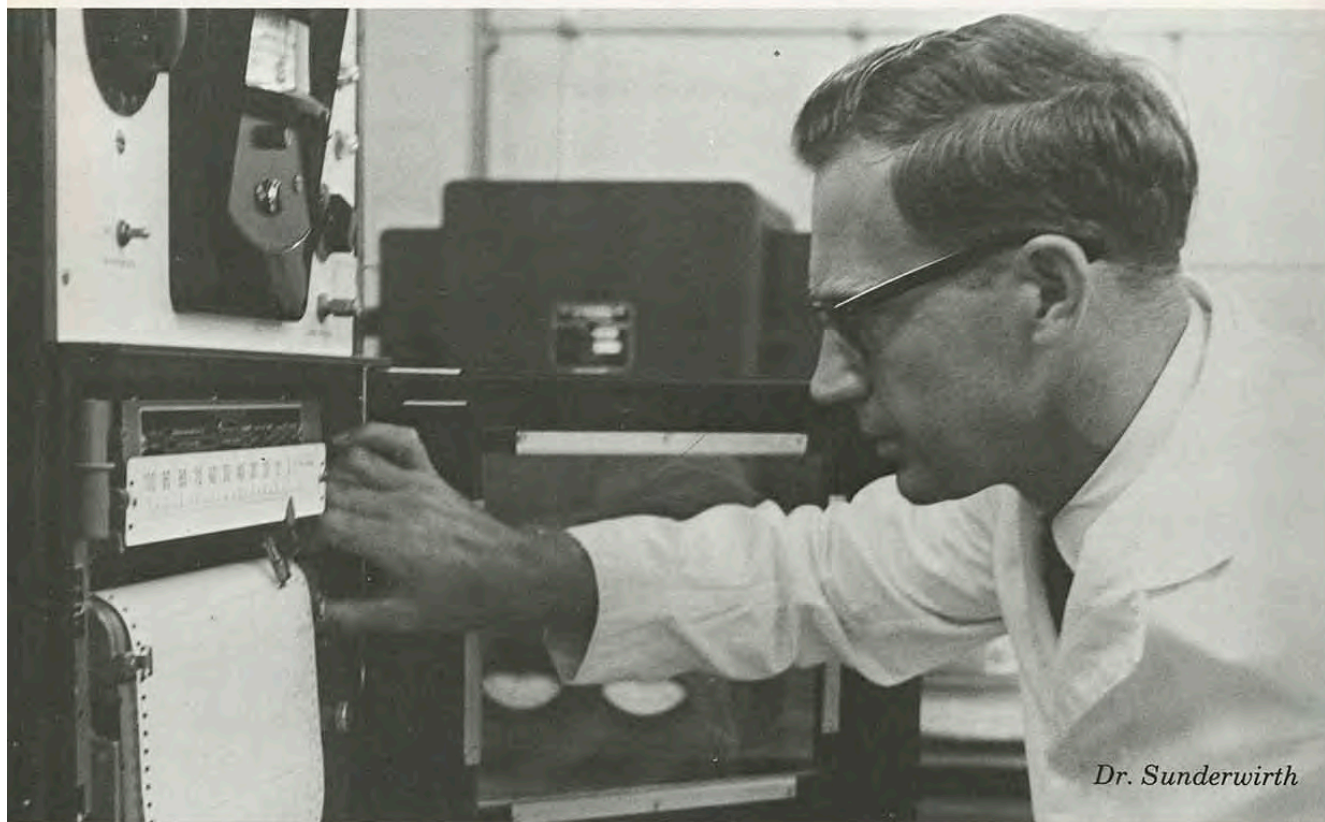

Business Administration is the most rapidly growing field in the midwest. Degrees are offered in the various phases of business—such as accounting, marketing, office administration, and business administration-liberal arts.

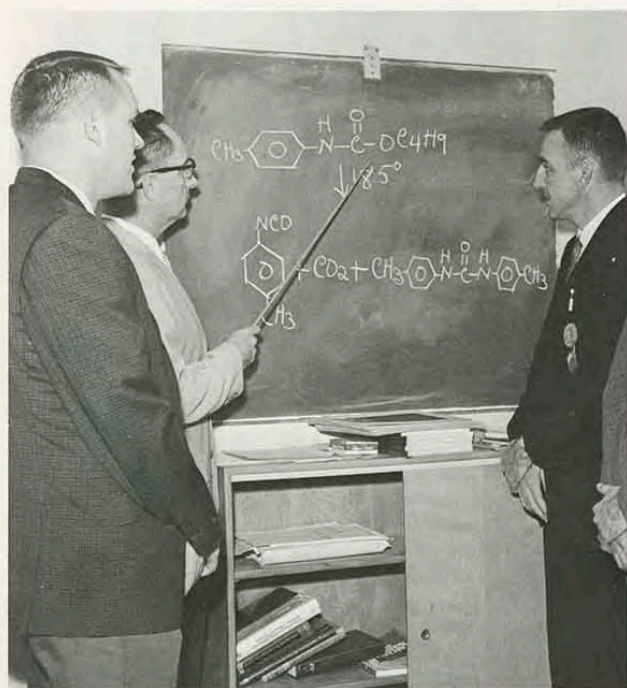

Chapters of various national professional business organizations are available for majors and minors in the KSC business department. They include: Alpha Kappa Psi, professional business fraternity for men; Pi Omega Pi, national honorary business education fraternity; Phi Beta Lambda, international future business leaders of America; Society for the Advancement of Management; and the National Collegiate Secretaries Association.

As a service to the area, the department sponsors short-term seminars and conferences for business, industrial and teacher organizations. Members of the teaching staff frequently serve as discussion leaders for these events.

CHEMISTRY

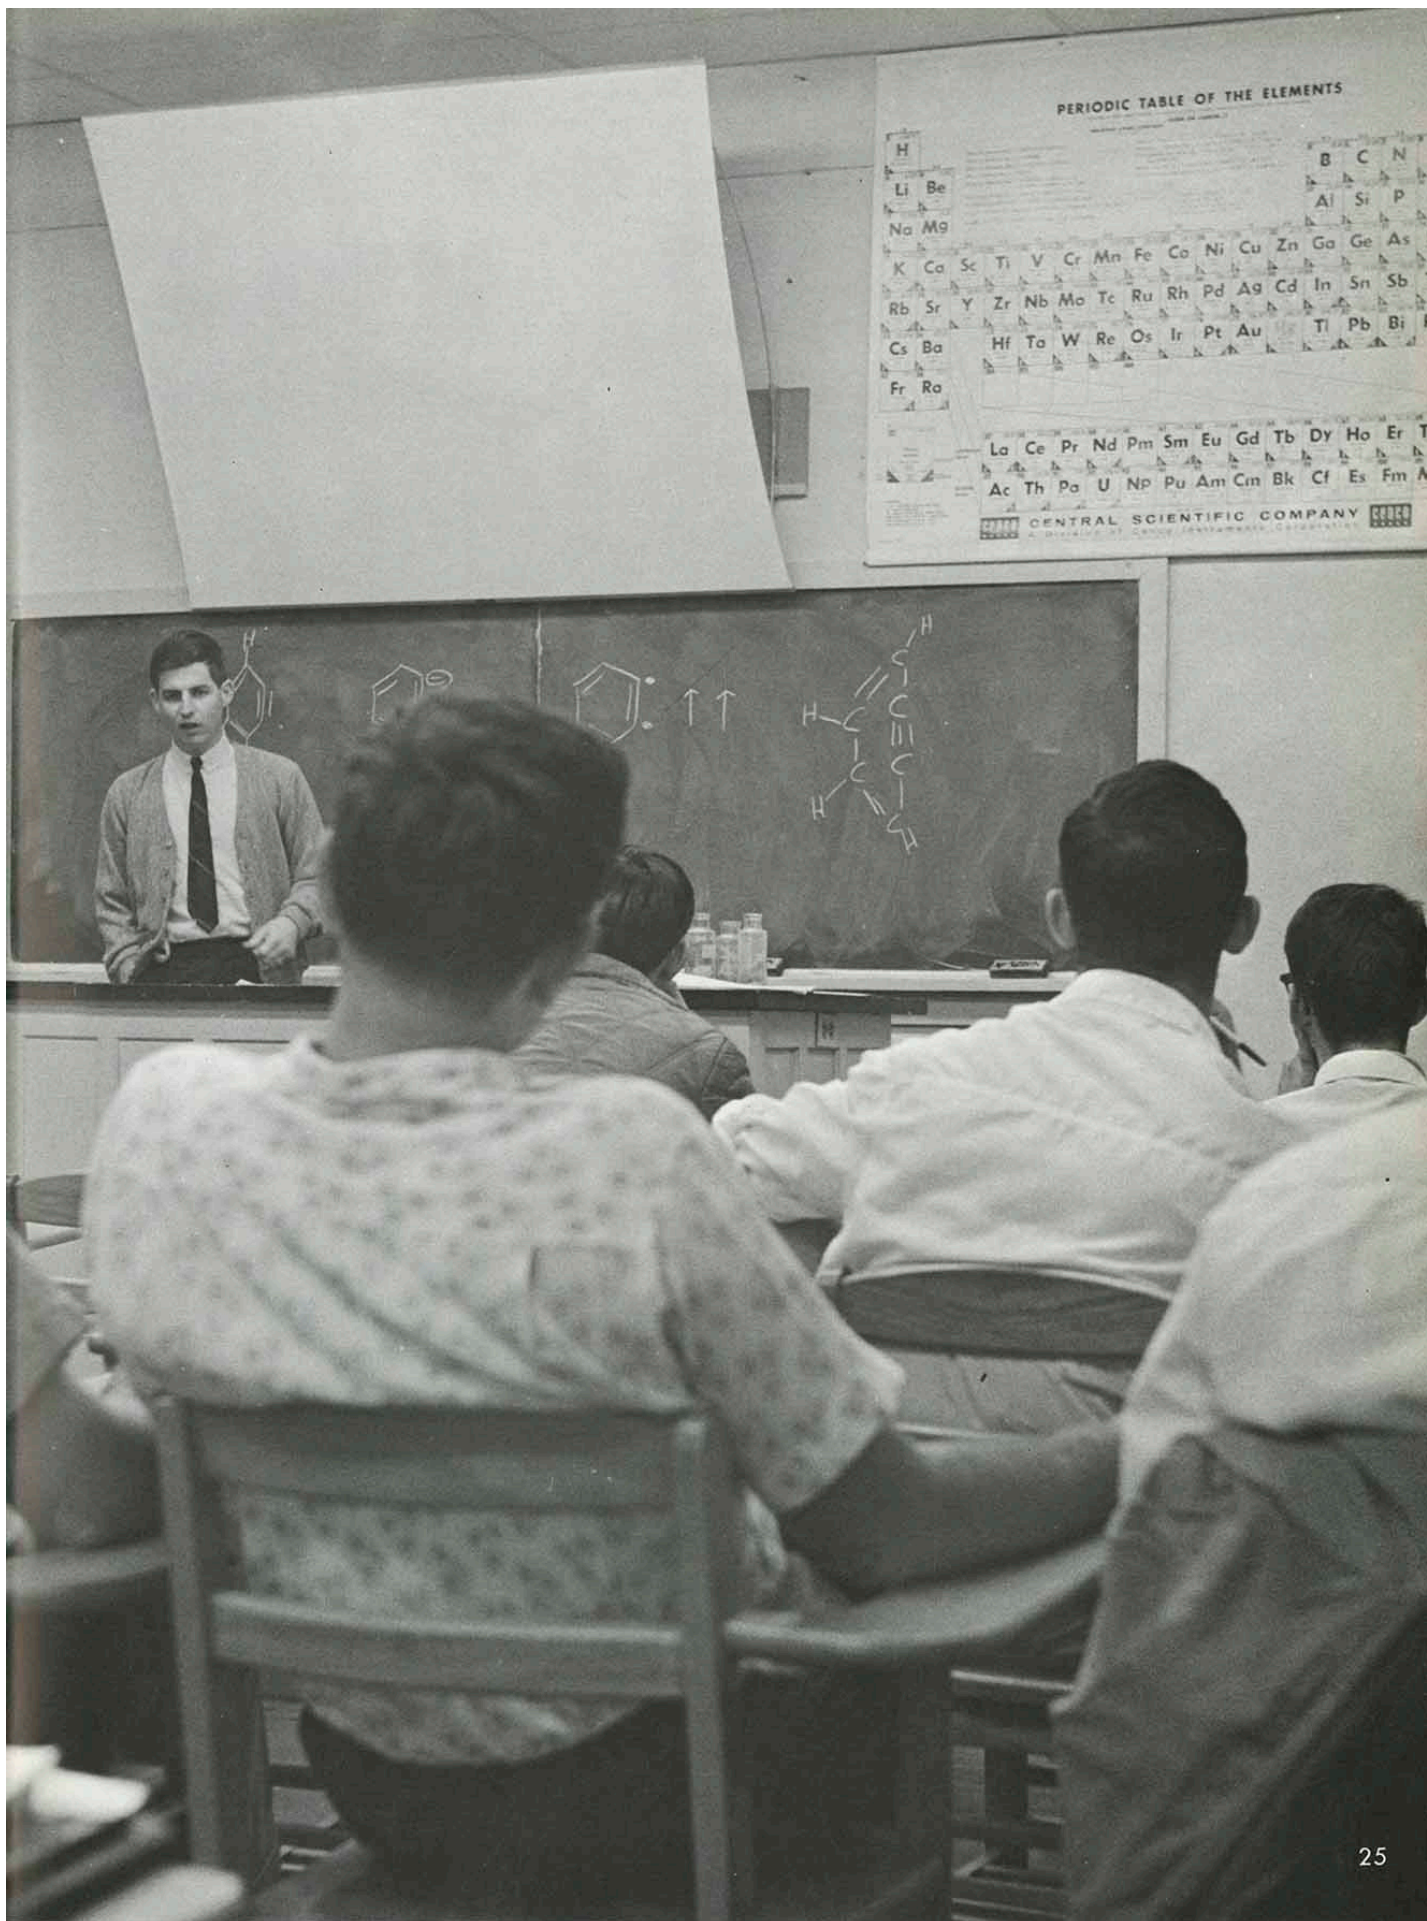

Dr. Sunderwirth

The "trial and error" method isn't always the best way to research a project, as any chemistry student will testify. All experiments are calculated and theorized before they are ever tried.

The chemistry department shares the ten lab rooms of the biology department and also uses the facilities of Yates Hall. Degrees are offered in chemistry, physical science, natural science, or a combination of chemistry and physical science.

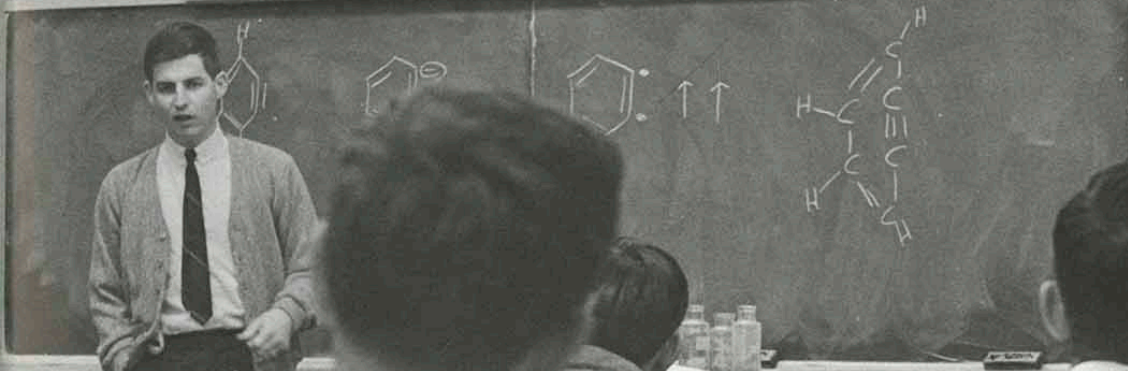

The departmental organization is the Student Affiliate of the American Chemical Society which is associated with the National Chemistry Society.

EDUCATIONAL PSYCHOLOGY

Dr. Aaron Harper

Mrs. Roby teaches the children rhythm by singing and clapping.

For all students preparing to teach at the elementary or secondary level, the department provides a sequence of courses in psychology and professional education. Included is an entire semester devoted to professional training, related laboratory experiences, and off-campus student teaching. The experiences provided in the laboratory schools include observation and participation by individuals and small groups and demonstration teaching for larger groups.

The elementary and secondary laboratory schools are organized in two buildings: the Horace Mann School, housing the kindergarten and grades one through six; the College High School, a six-year high school, spanning grades seven through twelve.

The professional semester is an entire semester devoted to professional education, consisting of intensive course work and related professional laboratory experiences, including supervised teaching. During the off-campus period, the student is expected to devote full time throughout each week in school and community to the same extent as does the teacher on the job.

The semester's work is divided into three periods. The first consists of approximately seven weeks of intensive course work and pre-student teaching laboratory experiences. The second period of about seven weeks is devoted to experiencing the full-time job of the teacher in school and community.

Dr. Chittenden, head of the department, works in her office on the files.

The Home Economics Department offers the degrees of Bachelor of Science in Education in Home Economics and Bachelor of Science in Home Economics. Under the education degree, students are enabled to meet the requirements for several vocations other than teaching, such as extension services, business, research, and homemaking.

Scholarships are offered by Phi Upsilon Omicron, the professional honorary fraternity, and the Home Economics chapter, a branch of the American Home Economics Association.

The Home Economics department controls the Home Management House, which provides unique opportunities in that it offers the students "real life" living conditions.

Students develop skills in home management.

HOME ECONOMICS

The objective of the Home Economics department is to prepare women to enter careers devoted to improving the lives of families and individuals. A large majority of the students of this department prepare to teach home economics in secondary school.

Professional activities carried on by the students include: aiding with the recruitment of new students by talking with groups in hometown high schools during vacation; participation in the activities of the State Home Economics Chapter; and by initiating freshmen into the department by means of a "Big Sister" plan which begins with letters of welcome written to incoming students during the summer previous to their enrollment.

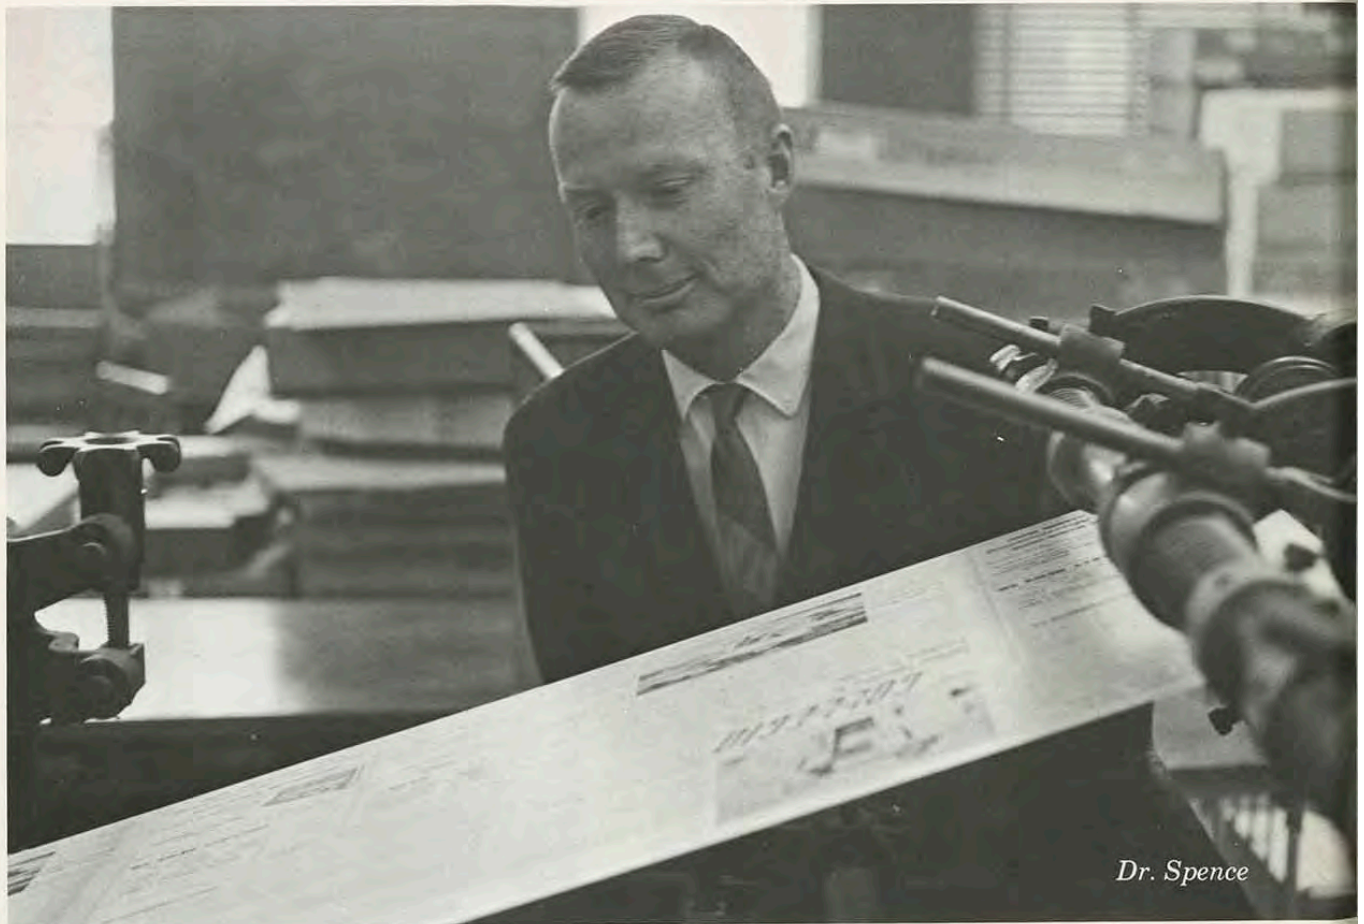

Driver's training has become completely automatic. With the new T.V. controlled training cars, training is now much safer for the student and the instructor.

The KSC printing department is one of the best-equipped in the United States. With the use of the new automatic bindery, printing is done much faster and easier. Most of the college publications and printed materials, such as the Collegio and the Grill menus are printed by the college department. The department has both the hot type and the linotype printing machines.

In the undergraduate division, the department offers the degrees of Bachelor of Science in Education, Bachelor of Science in Trade and Industrial Education, Bachelor of Science in Industrial Technology, two-year Technical curriculum, Industrial Arts Education teaching minor, and Industrial Technology minor. For graduates, they offer degrees in Specialist in Education, Master of Science with a Major in Industrial Education, and Master of Science with a Major in Trade and Industrial Education.

INDUSTRIAL EDUCATION

Dr. Spence

Art students learn elements of design in beginning art class.

ART

The Industrial Arts department offers degrees in art education, specialized art, commercial art, and a minor in art education. Both the education and specialized degrees require a senior exhibit. This exhibit may be located in any faculty approved location. The exhibit must be in the major field of the student, such as painting or sculpturing. The student usually exhibits his paintings or articles for at least one week.

Mr. Wooster, of the KSC art department, created our contemporary "Gus," which is located in front of the Student Center. "Gus" is now made of fiberglass, but will later be cast of bronze. "Gus" was a gift to the college from the Senior Class of 1965.

Kappa Pi, the honorary art organization, is sponsored by the art department. This organization is open to all art majors and minors.

LANGUAGE & LITERATURE

The Language and Literature department provides both liberal arts instruction for the Bachelor of Arts degrees and teacher preparation for the Bachelor of Science degree in English, foreign languages, journalism, and speech. The department also provides minors in English, journalism, literature, French, German, Russian, Spanish, and speech.

The Language and Literature department sponsors the weekly edition of the Collegio, the Kanza, college plays, studio productions, and the college radio station.

Studio productions provide training to better enable the student to perform in a teaching situation. Student actors receive additional training in a different type of production.

Language lab aids in the comprehension of languages.

SPONSORS DEBATE

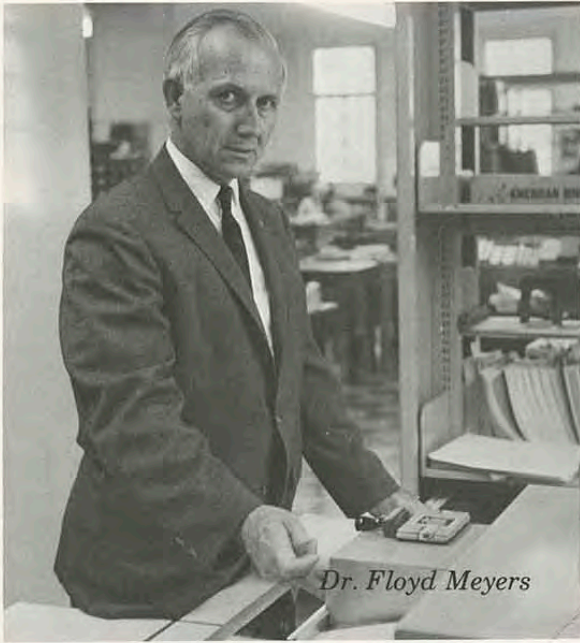

Debaters listen to arguments.

The KSC Forensic Squad participated in an exciting and profitable season. Debaters traveled to Washington, D.C. and Los Angeles, California, as well as within the surrounding five states. The proposition for this year was, **RESOLVED: THAT LAW ENFORCEMENT AGENCIES IN THE UNITED STATES SHOULD BE GIVEN GREATER FREEDOM IN THE INVESTIGATION AND PROSECUTION OF CRIME.** Terry Beck presided over Pi Kappa Delta, the honorary speech fraternity on campus. Professor H. Francis Short, director of forensics, sponsored the Pi Kappa Delta organization and coached the squad in forensic activities.

Theta Alpha Phi is the national fraternity of the theatre arts. Membership is attained through participation in college theatre productions either as an actor or technician. The operation of college theatre requires every conceivable talent and ability and is open to all regularly enrolled students to KSC. Two of the productions this year were "Oh Dad, Poor Dad, Mamma's Hung You in the Closet and I'm Feeling So Sad" and "Tiger at the Gates."

Dr. Floyd Meyers

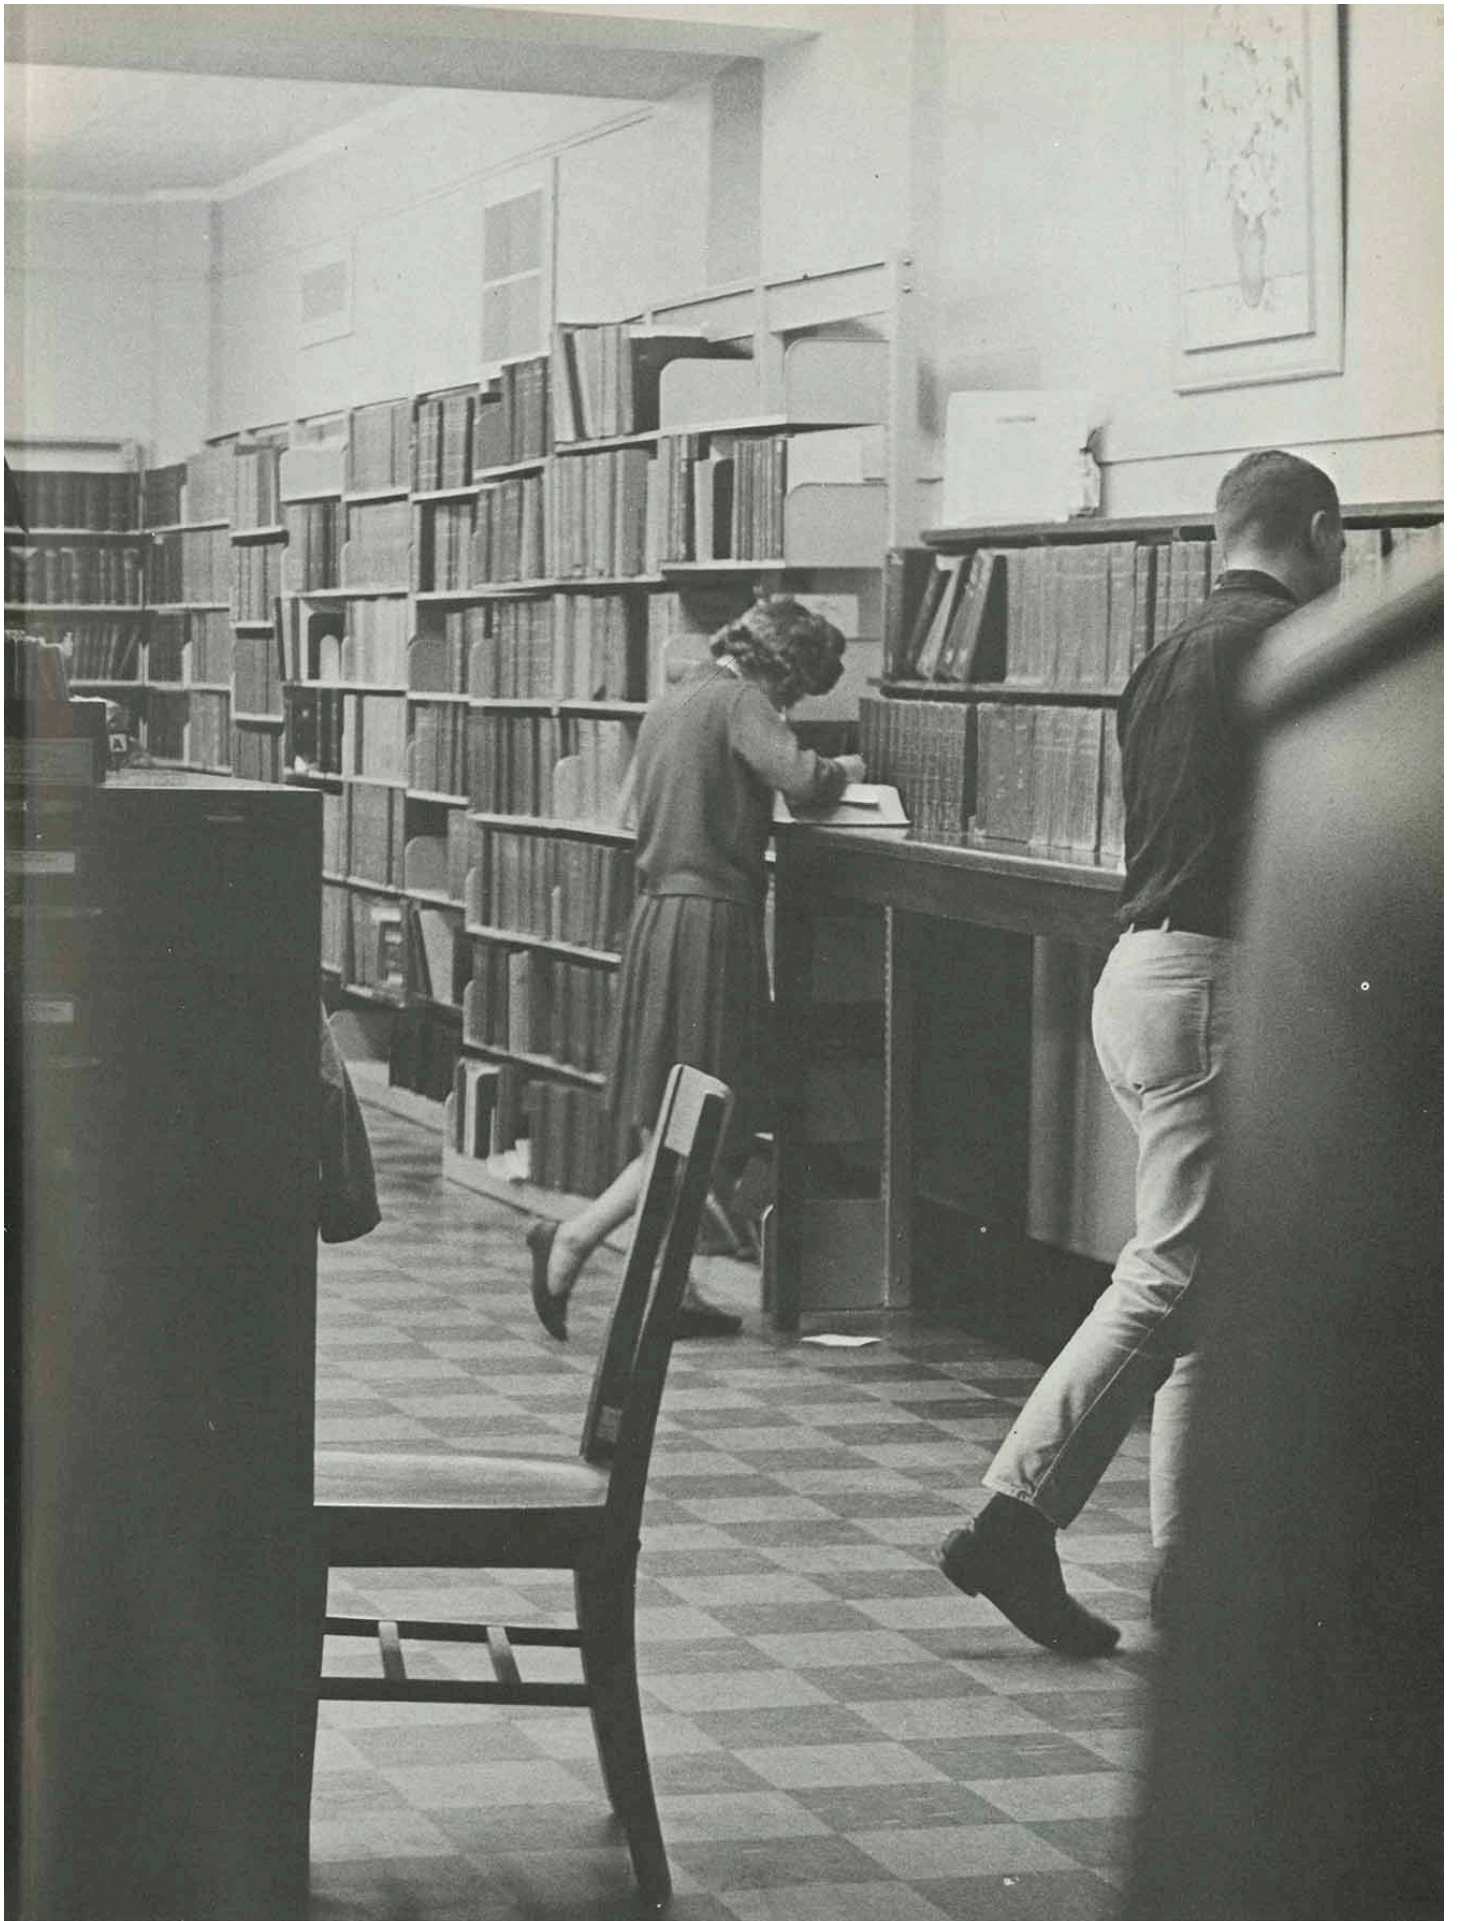

Xeroxing has become so popular that students now have to be placed in a waiting line to have their materials xeroxed. This is the second year for the service provided by the library at a minimal fee.

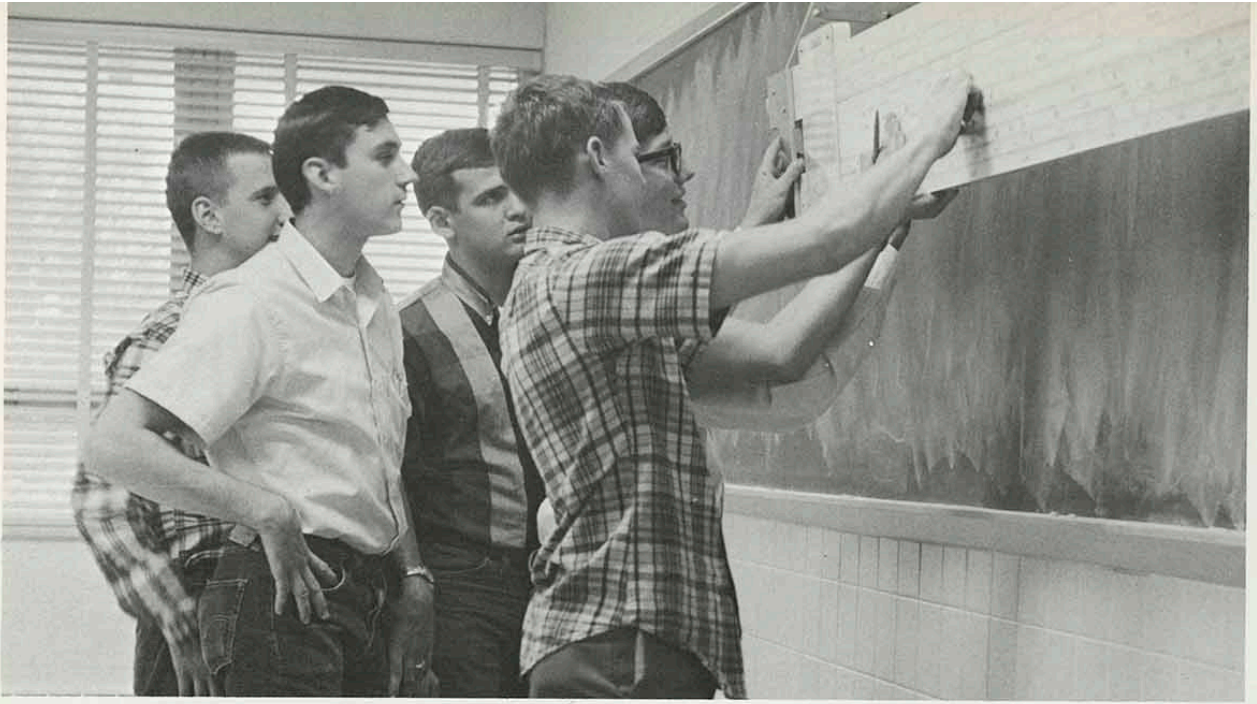

A library science minor may be chosen with any subject major to complete requirements for graduation. This library science minor applies to the Bachelor of Arts degree or the Bachelor of Science in Education degree. This minor is pre-professional at the undergraduate level and will generally be accepted by accredited library schools throughout the United States.

Students wishing to prepare themselves for school librarianship in Kansas may take the library science courses without declaring a minor in a department. However, the student must qualify for the field in which he plans to teach—an elementary school librarian must have elementary education, while a student wishing to become a secondary or junior college librarian must have secondary education.

LIBRARY SCIENCE

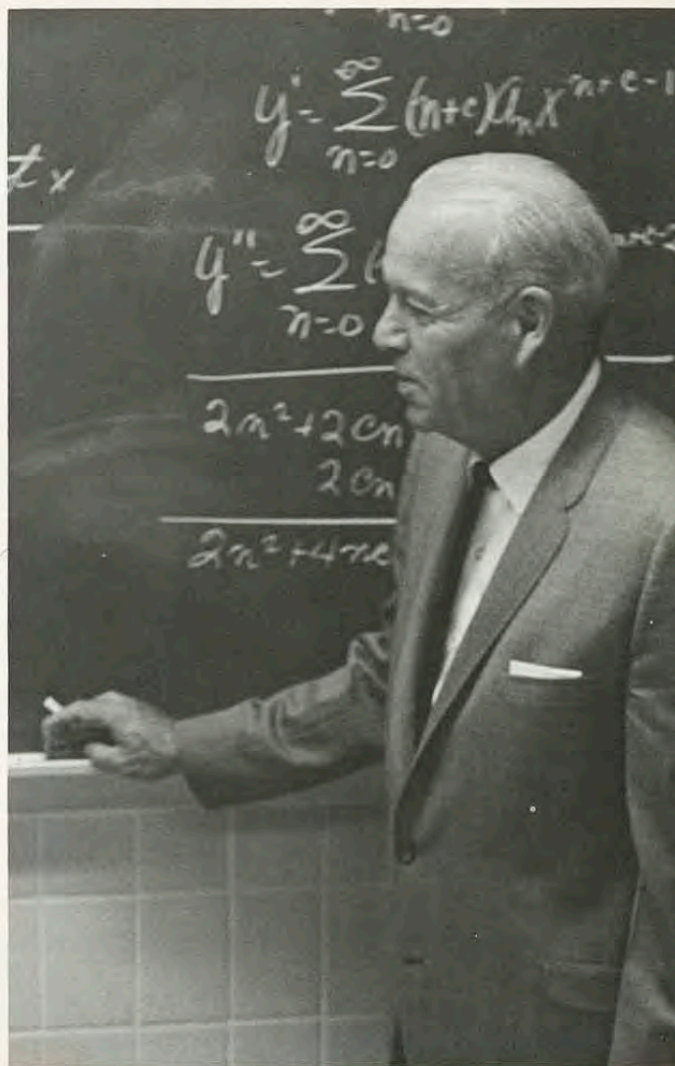

The slide rule solves many problems.

The Department of Mathematics offers courses leading to the degrees of Bachelor of Arts, Bachelor of Science, and Bachelor of Science in Education for the undergraduates. For the graduates, the department offers courses leading to the degrees of Master of Arts and Master of Science.

The Kansas Alpha chapter of Kappa Mu Epsilon, a national honorary society in mathematics with sixty-six chapters, is sponsored by the department. Three members of the department have held national offices in this organization.

(Did someone forget a step), wonders Dr. Smith, head of the department.

MATHEMATICS

The IBM 1620 and the LPG 30 are the two newly acquired digital computers. Courses are offered in programming and methods of the computer. The computing center in Yates Hall is a cooperative project with the Business Administration department.

Cadets learn the organization of the Army in ROTC.

Army Reserve Officer Training Corps is required for male students during their freshman and sophomore years. Men are trained in leadership abilities and field maneuvers and tactics. An advanced course in Military Science is offered to all juniors and seniors. If a student participates in the advanced course, he attends summer camp for two weeks where he learns more about the Army administration, Military law, and the role of the United States in world affairs.

The Reserve Officer Training Corps Band has participated in the "Mardi Gras" parades for the last four years in New Orleans. They have received trophies the last three years for being among the most outstanding groups attending.

MUSIC

Dr. Laing, head of the music department, examines the new harpsichord.

Making serious music available to the public is one of the primary goals of the music department. This year, the music department presented a series of major attractions. Featured groups this year were the Brahms Quartet from Rome, the Netherlands Quartet from Holland, and the Weller Quartet from Vienna. A number of various senior and graduate recitals were presented throughout the year, as well as the usual choir, orchestra, and band concerts.

The Collegiates, a select singing group sponsored by the music department and directed by Richard Smith, toured the South Pacific. They performed in Japan, Formosa, the Philippines, and other East Asian countries on their U.S.O. tour. Last spring, the Collegiates sang at the World's Fair in New York, representing Kansas in Kansas Week. In 1963, on their first U.S.O. tour, they sang in the Western European Countries.

Prentice Gudgen, head of the department, explains a play in football.

HEALTH, PHYSICAL EDUCATION AND RECREATION

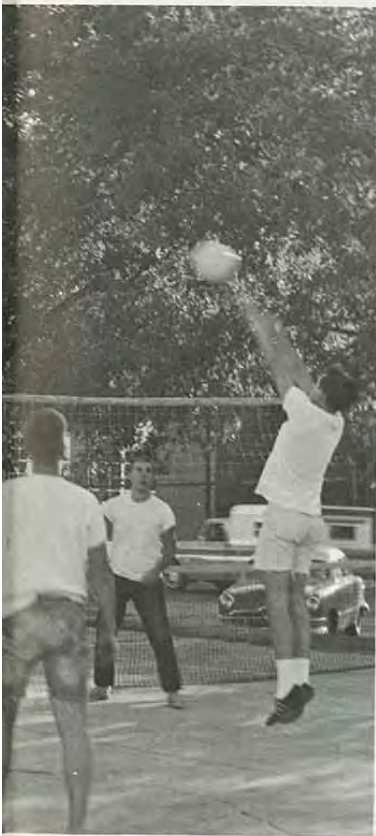

Intramural sports are sponsored by the department.

The Physical Education department supervises athletics, intramural and physical education activities, and offers courses in the theory and practice of physical education for the preparation of teachers and athletic coaches. The department offers courses and majors in the field of recreation for majors and non-majors. Majors can prepare for supervisors' and directors' positions in the expanding field of recreation. In cooperation with the Biology department, courses in health and health education are required of physical education majors, preparing them to teach health in the public schools.

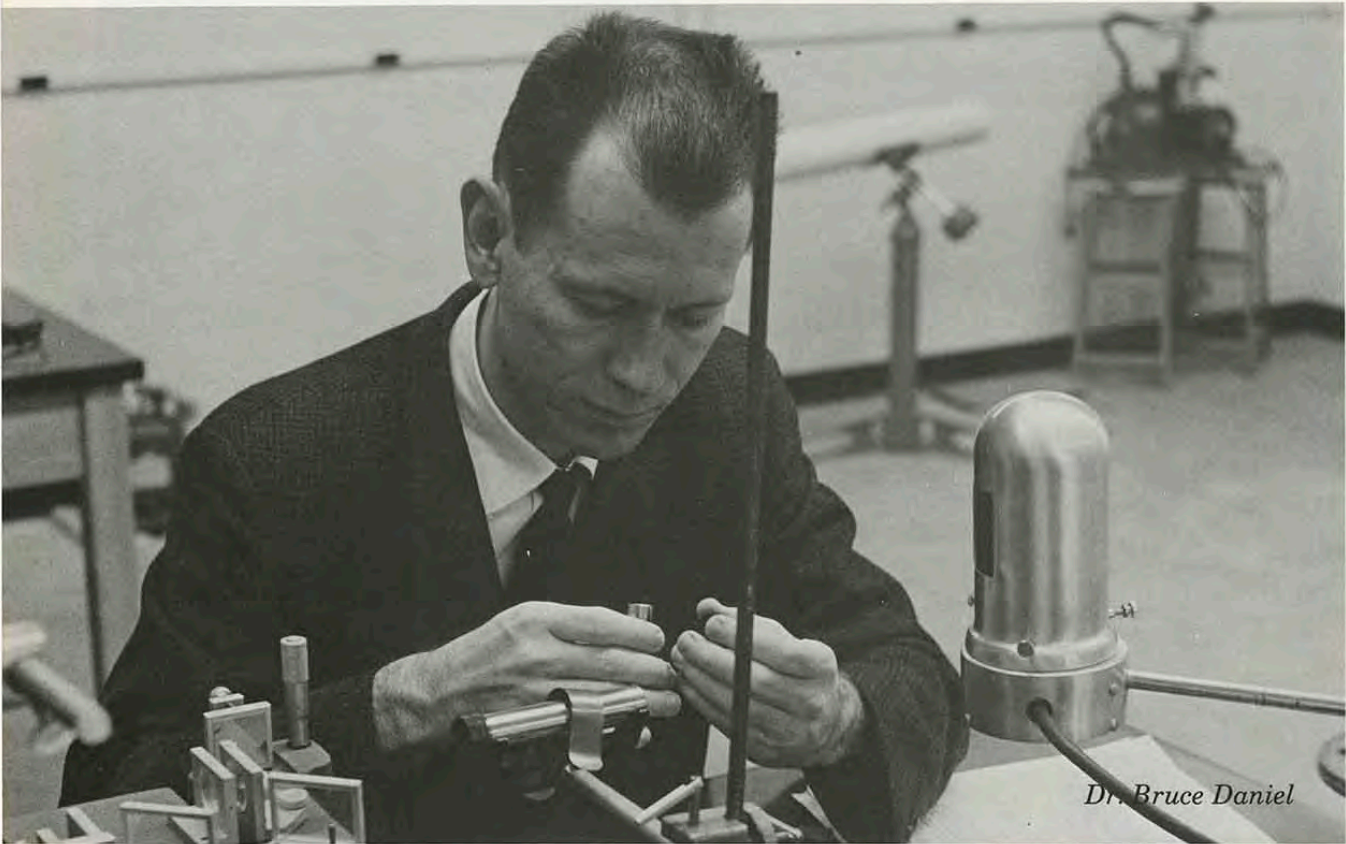

In addition to enrollment in gymnasium classes in physical training, all students are encouraged to develop physical skill by playing on intramural teams in various athletic lines. The more proficient of the men have an opportunity to try for college teams and participate in intercollegiate contests. The college encourages participation in athletic sports as a means of developing desirable physical, mental, and social qualities.

The gymnasium provides standard facilities for basketball, swimming, and other indoor sports, and physical education. Brandenburg Stadium is one of the best for football, track, and outdoor sports. In addition, there are excellent playing and practice fields for all outdoor sports.

The classroom provides basic principles.

PHYSICS

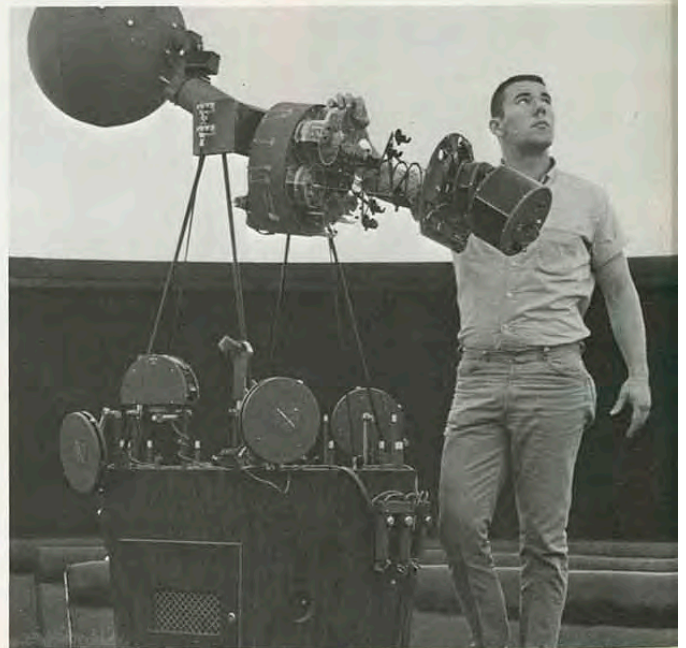

Dr. Bruce Daniel

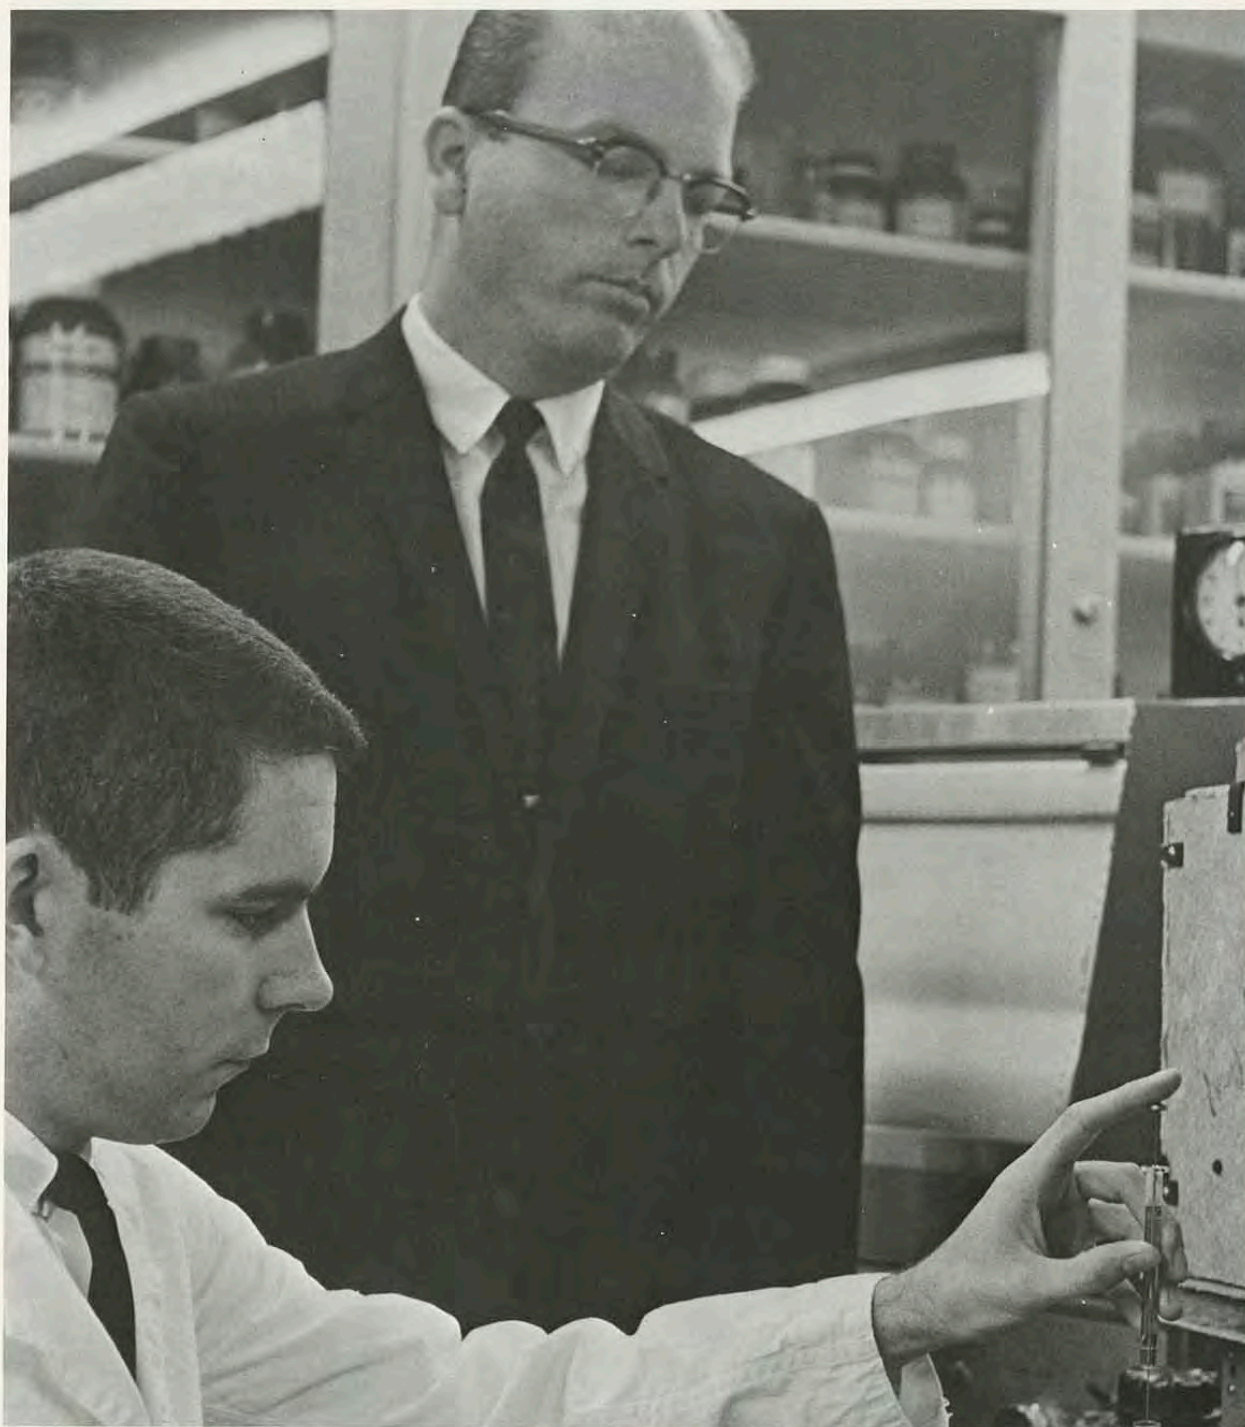

The physics department offers course work leading to a major or minor in physics with degrees of Bachelor of Arts, Bachelor of Science, Bachelor of Science in Education, Master of Science and Specialist in Education. The department co-operates with the departments of Biology, Chemistry, and Education and Psychology to offer course work leading to the degrees of Master of Science in Natural Science (Physics emphasis), Specialist in Education (Physics), and Specialist in Education (Physical Science).

The physics department was formed in June of 1962. The department is located in Yates Hall, where it operates the college planetarium. The observatory on top of Russ Hall is also operated by the physics department.

The department trains students for industrial physicists, and graduate research as well as for teaching. All research at present is in solid state physics.

"It's a bird! It's a plane! It's"

Mr. John Witt, Senior from Pittsburg, and a National Science Foundation Undergraduate Research Participant performs operations on a gas chromatograph while Dr. Joe M. Walker, Professor Analytical Chemistry and NSF Research Director looks on.

The grant is sponsored jointly by the National Science Foundation and Eagle-Picher Research Laboratories. The research deals with the analysis of Boron Tribromide relative to trace carbon

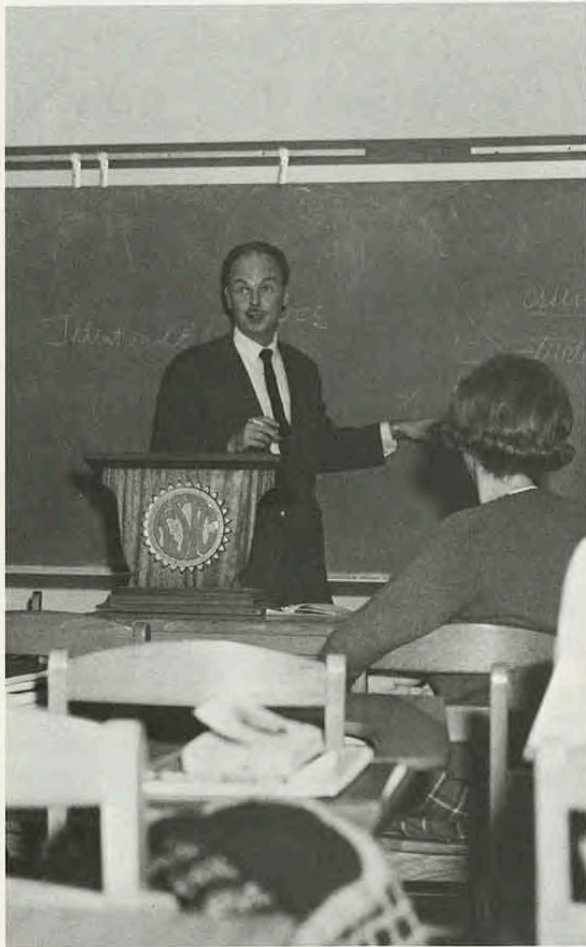

contamination at the part-per-million-level. The method takes advantage of the high sensitivity and selectivity of gas chromatography—one of Dr. Walker's primary research interests. The ultimate object of the research is single crystal, elemental Boron, a major component of semiconductor materials.

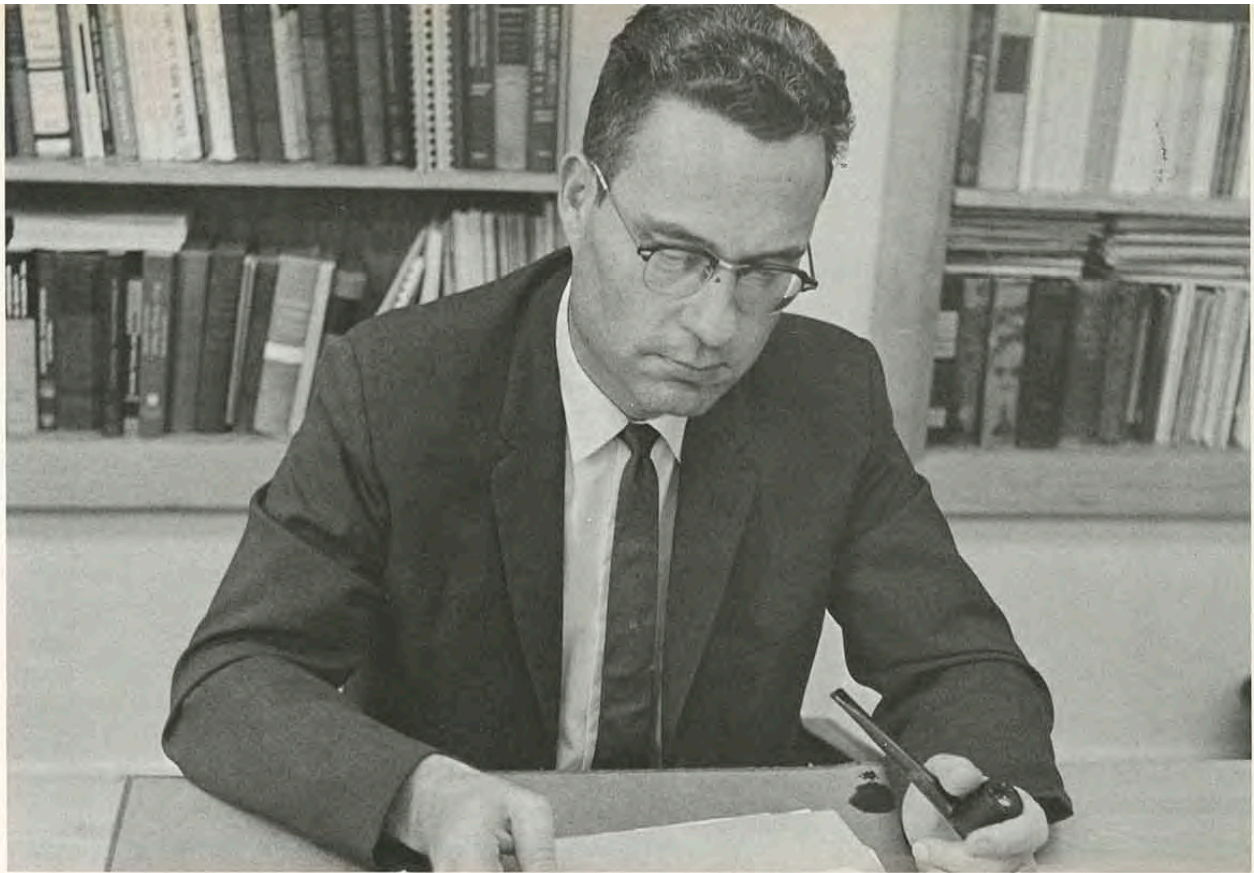

Dr. Walker has had four National Science Foundation Grants for undergraduate research.

Superior student seminar examines works in ethics.

Kansas State College is committed to a policy of encouraging and recognizing superior scholarship. This classification is available to undergraduates having academic records indicating high achievement, ordinarily in the upper five percent for previous academic work, or standings on entrance tests usually consistent with such high achievement. Any individual desiring the classification "Superior Student" and its privileges must apply in writing to the Superior Student Committee for consideration at least six weeks prior to the next enrollment period.

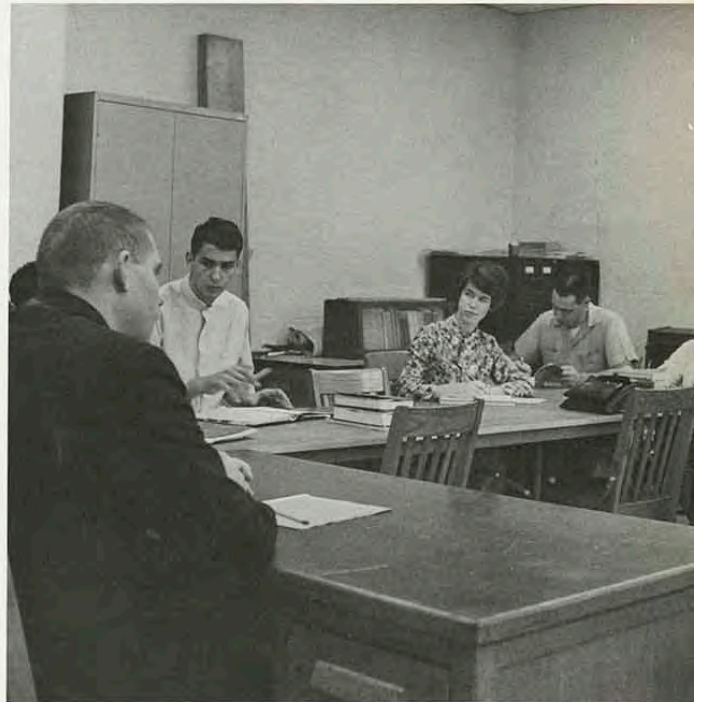

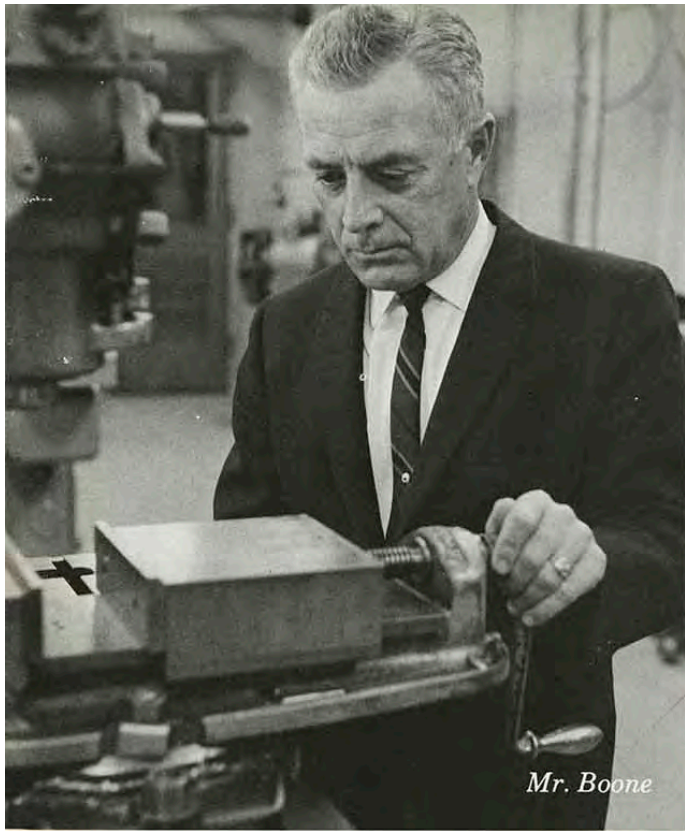

At the desk, Dr. Welty, head of the department, catches up on his mail.

SOCIAL SCIENCE

The department of social science includes the fields of history, economics, geography, political science, and sociology. Degrees offered include Bachelor of Arts, Bachelor of Science in Education, and Bachelor of Science with a major in social work. Pre-professional degrees are offered in the fields of law and theology.

The department sponsors many seminars for college and junior college teachers and students each year. The department also assists in sponsoring a number of lectures by KSC staff members and off-campus personalities.

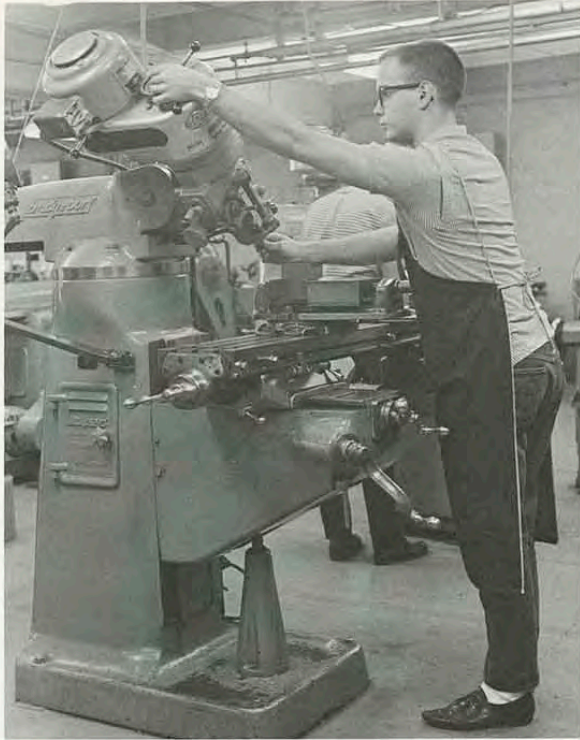

Mr. Boone

Vocational Technical Training is available at Kansas State College for those students who do not wish to pursue a college degree program and desire specialized pre-employment training for a particular trade. Trade preparatory courses offered in the Vocational Technical Training consist of two years of pre-employment training designed to prepare young men and women for employment in their selected trades and technical occupations. Students enrolled for these courses attend classes six hours per day, five days per week, with four hours per day devoted to shop practice to develop skill in manipulative operations of the occupation and two hours per day to related subjects to expand the student's technical knowledge in the particular field for which he is enrolled.

Mrs. Fowler works with students in hair design.

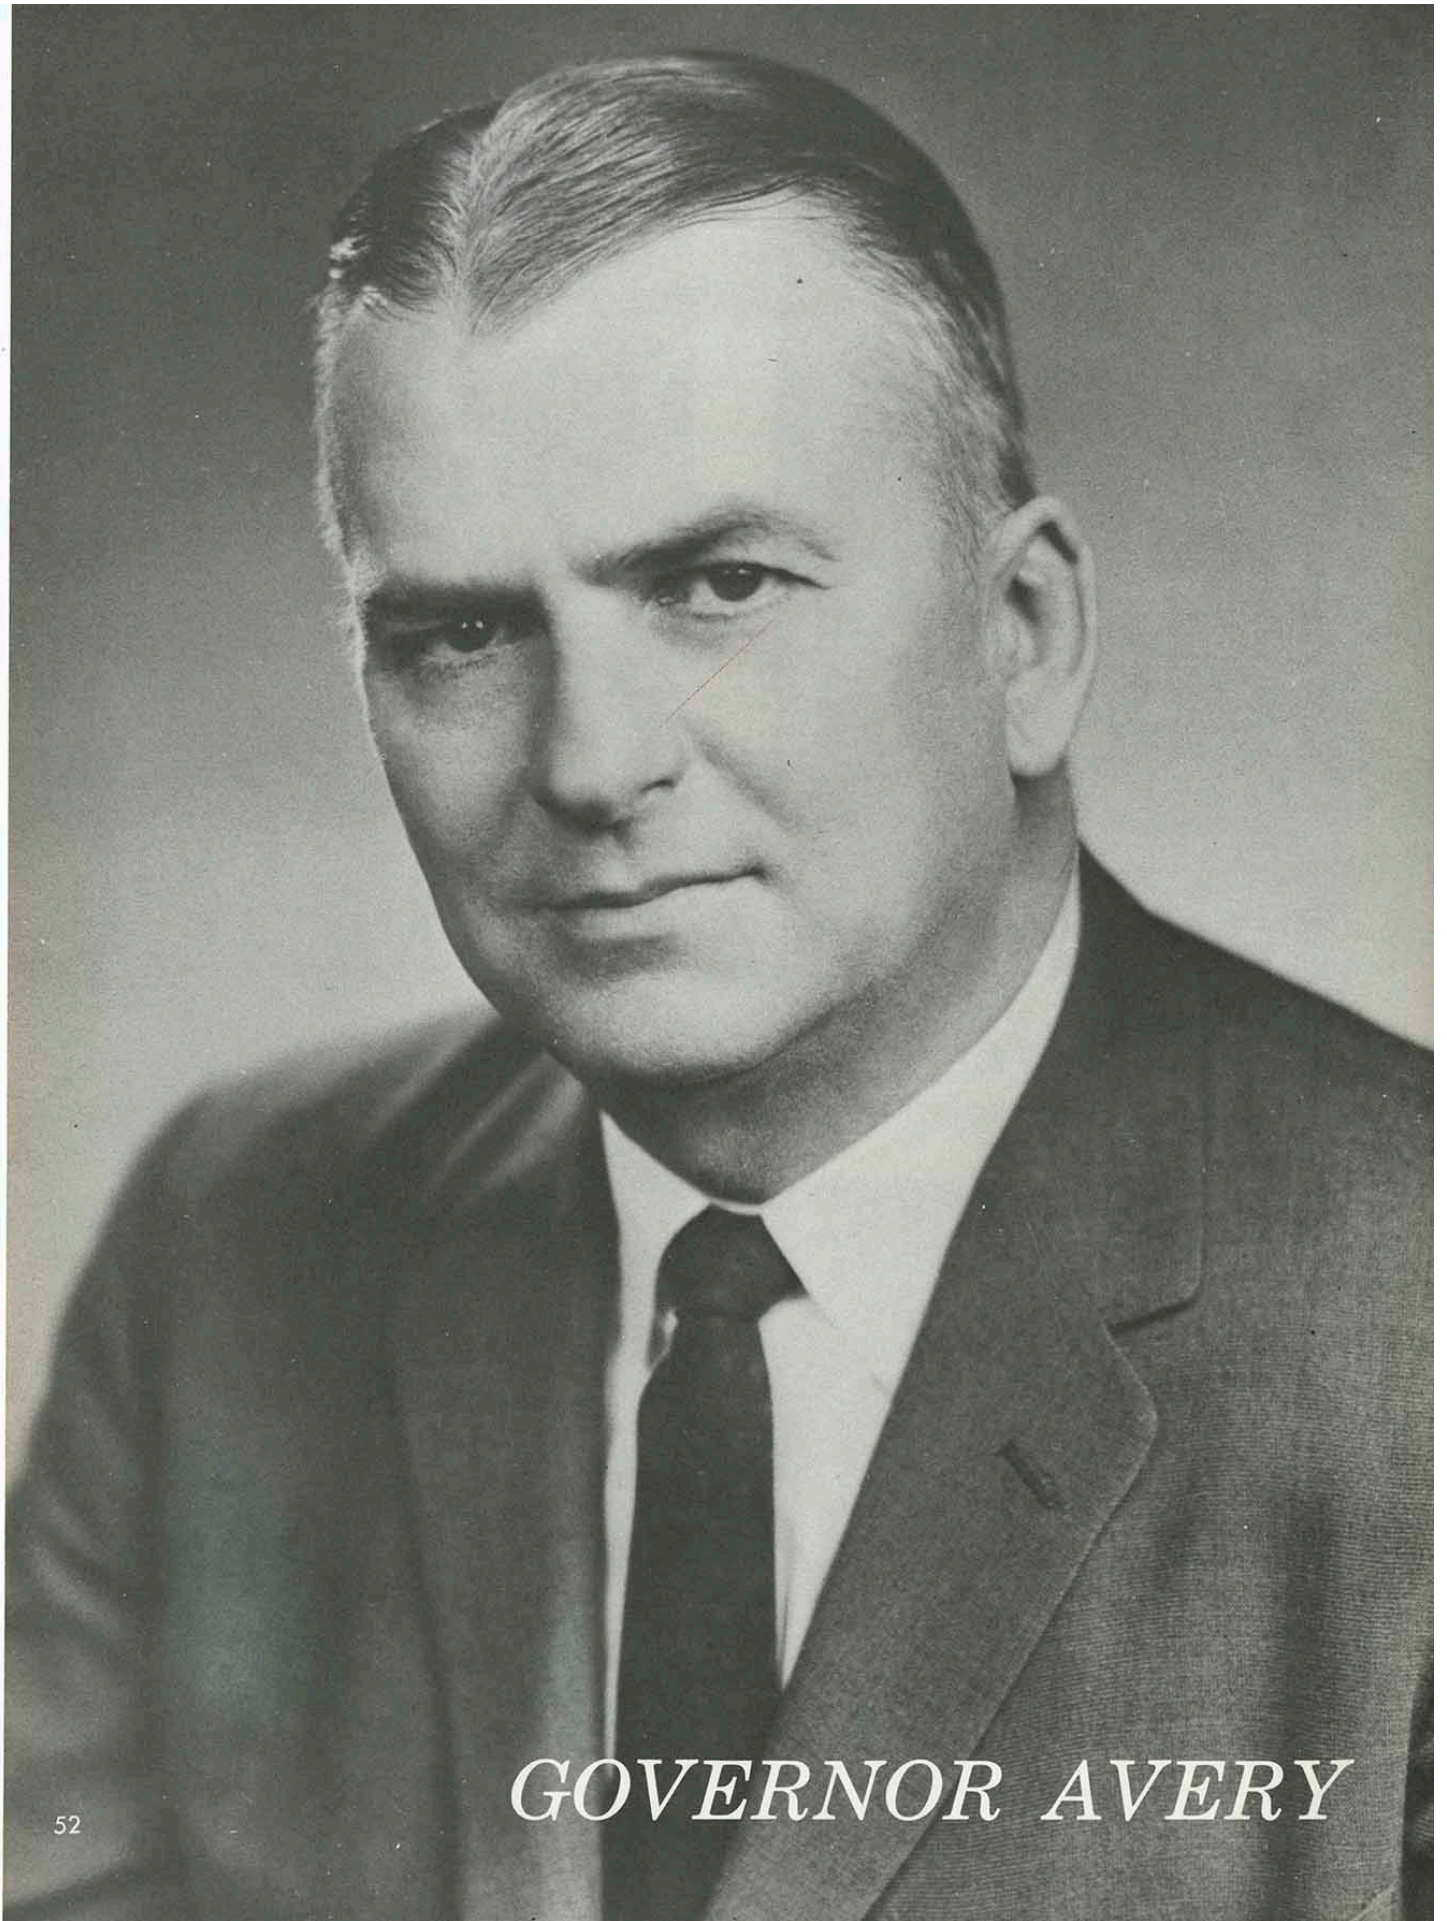

Vocational student works with complicated machine and another repairs a car.

VOCATIONAL TECHNICAL TRAINING

Students are involved in welding and drafting.

JUNIOR PANHELLENIC

Junior Panhellenic is an organization of Greek pledges. It is a subsidiary of the Panhellenic Council, functioning under its auspices. It is composed of all Greek social sorority pledge classes.

Junior Panhellenic's purpose is to up interfraternity relations within the college, promote friendliness and interfraternity spirit among the pledges, and to provide preparatory training for work in Senior Panhellenic.

Junior Panhellenic sponsors the Greek Christmas party and caroling party, all pledge slumber party and various other pledge activities.

GREEK ACTIVITY BOARD

The Greek Activity Board was formed to replace the disbanded Inter-Greek Council. The purpose of this board is to create and plan a program of activities and functions for its member organizations. This board is trying to increase the understanding and respect existing among the Greeks and among the student body.

The Greek Activity Board plans Greek Week and the Greek Ball, and is in charge of a pledge workshop each semester.

This year's Greek Activity Board Chairman is Chuck McGuire of Sigma Chi.

Back Row: Dixie Butler, Karen Coaker, Rush Chairman; Chuck McGuire, Chairman of the Board; Mary Anna Marsh. Second Row: Bob Jolley, Eileen Kuhel, Jeannie Maritan, Mary K. INTERFRATERNITY COUNCIL

The "IFC" is the co-ordinating and governing body of all general-social fraternities on campus. It is affiliated with the National Interfraternity Conference and annually sends two delegates to represent Kansas State College at the national meeting.

The Council is composed of two delegates from each active chapter and one delegate from the pledge class of each of the seven national fraternities here at KSC.

This year's IFC has been working with the administration and two groups of men who are seeking recognition as fraternities on a program of expansion of the fraternity system. Also, as well as creating and enforcing the rules which govern fraternities, the Council has co-operated with the Panhellenic Council in creating the Greek Activity Board.

This year's IFC President is Steve Bolton of Sigma Chi.

Delta Xi Chapter of Alpha Delta Pi

This has been a very successful year for the members of Alpha Delta Pi on the KSC campus. The ADPi's have been very active in greek activities. Nancy Oldham and Celia Long are officers of Senior Panhellenic, Candy Brewer is secretary of the Greek Activities Board, and Kathryn Troutman and Carol Cumpton are officers of Junior Panhellenic. The A D Pi's were also hostesses for the Junior Panhellenic Slumber Party.

Various activities throughout the year include a breakfast for the members of Alpha Sigma Alpha, Fathers Week-End, Patroness Tea, Founder's Day Banquet, a tea for the Dean of Women, and a Christmas Formal, the Black Diamond Ball.

The A D Pi's have members who are active in Cwens, Kappa Delta Pi, Student Assembly, and Delta Psi Kappa.

This year Judy McCreight, a past president, was elected for the second time to Who's Who in American Colleges.

*Beta Nu Chapter of
Alpha Kappa Alpha*

Beta Nu Chapter of Alpha Kappa Alpha is proud of its distinguished history. It is particularly proud of the fact that it was the first greek letter organization for Negro college women. Since this chapter was first organized on January 29, 1937, this eminent group of women has strived for the highest of attainments and have developed an appreciation for finer womanhood, encouraged scholarship and high ethical standards.

Combining fun with services, the A.K.A.'s engage in chapter activities that range from its annual Black and White Ball, to building up some family happiness through the giving of Thanksgiving and Christmas baskets. The members of the sorority gain special joy by giving Christmas gifts annually to the boys and girls of the Parson's State Hospital and Training Center.

Beta Zeta Chapter of *Delta Sigma Theta*

The women of Beta Zeta Chapter of Delta Sigma Theta Sorority are proud of their participation in campus life. For the past two years they have taken first place in the annual Greek sing. They, along with their brothers of Kappa Alpha Psi fraternity, won first place in the intramural volleyball tournament. Seven of the girls are members of KSTA, others are members of Cwens, W.R.A., Pemm Club, Student Union Board, and Judicial board. Presently, one of it's members is president of Mitchell Hall.

Alpha Gams "relax" around the house.

Epsilon Kappa Chapter of Alpha Gamma Delta

Alpha Gams returned to school in the fall ready to begin another active year. Rush was first on the agenda, and a group of twenty-five girls was pledged. Homecoming was the first major social event of the year and the chapter combined its efforts with the pledge class to enter a queen, car and house decoration. AGD's were pleased to have Connie Herlocker elected 1965 Homecoming Queen. The annual Christmas formal was the highlight of the social season. Mary Benelli was honored as Snow Queen at this time. This award is given in recognition for services to the chapter.

Never too busy for campus activities, Alpha Gams participated as members and officers of AWS, Student Assembly, departmental and honorary groups, dramatics, music, Collegiates, Kanza, cheerleaders, Cwens, Golden Crest, and Who's Who in American Colleges and Universities.

Eta Eta Chapter of Alpha Sigma Alpha

The Alpha's started the year off with Jeannie leading us into Rush Week. This proved to be a very exhausting and hectic week but also very successful.

Before we even had time to catch our breath Hevner had us hard at work on Homecoming. This year's slave-drivers were Howerton, Stebbins, and even Romerman. And you could always count on Helton and Coaker to add their two cents. But once again the Alpha Sigs proved their talent in building gorillas, carousels, and icabods by winning the Sweepstakes Trophy. We call it our \$1,000 trophy. One of our most exciting moments was when our gal Angé was a finalist for Homecoming Queen.

Shortly after Homecoming Nancy Morin was named an Honorary Battalion Commander at the Military Ball.

In December Jacque rounded us all up and lead us to Parsons to entertain 60 little boys with a Christmas party at the Parsons State Training School.

Throughout the year all the Alpha Sigs participated in campus activities such as Cwens, Golden Crest, Student Union Board, Student Assembly, KANZA Staff, AWS, and Who's Who.

This year Judy led the active chapter while Karen tried to lead the pledges. But both resented the reference to the "blind leading the blind."

President Judy Hevner accepts the Alpha Sigs Homecoming Sweepstakes Trophy.

Tri Sigmas begin school by participating

*Chi Chapter of
 Sigma Sigma Sigma*

This year the Tri Sigmas began by preparing for formal rush. This was a busy time for all with many meetings called by the Panhellenic President, Ann Speck of Sigma Sigma Sigma. But rush was just one of the many activities which went on this fall. It seemed like rush was just over and it was time to begin work on Homecoming. This year the Sigmas took first place in House Decorations plus having the first attendant to the Homecoming Queen, Miss Cheryl Shepard. Not long after this, pledge Nancy Martin became Military Ball Queen.

Each year at Christmas the Sigmas have a Christmas Party at Elm Acres for the children. When spring arrives the excitement begins awaiting the night of the Tri Sigma Spring Formal. But spring also brings election time on campus and this is where the Sigmas pulled into full swing capturing many positions such as Student Assembly, AWS, Collegio Staff, Golden Crest and Cwens.

The first Negro college fraternity was founded December 4, 1906 at Cornell University, Ithaca, New York, by its seven founders known as "Jewels."

More than 50,000 men have been initiated into Alpha Phi Alpha Interracial since 1945. There are now 130 undergraduates chapters on college campus, and 195 graduate chapters in 38 states, the District of Columbia, British West Indies, Europe and Africa.

Gamma Chi chapter of Alpha Phi Alpha was established on the K.S.C. campus in 1948. Since that time Alphas have excelled in scholarship, athletics, and other campus programs.

Beta Chi

Beta Chi was founded as a local September 1965 and set a goal of affiliation to a strong national fraternity. Throughout the year, Beta Chi has had a full social life with parties such as purple passion, yard-and-half party, a farmer party and several others. The members of the fraternity have designed their own crest, banner, and pin. They also obtained a house at the beginning of the spring semester, located at 1117 South Broadway. The men of Beta Chi have tried to set high standards to give their pledges a challenge to carry on the growth of their newly-organized fraternity. Members of Beta Chi are active in such organizations as Student Union Board, Pershing Rifles, Greek Activities Board, Inter Fraternity Council, and honor students.

Epsilon Chi Chapter of Pi Kappa Alpha

Pi Kappa Alpha is really great,
Founded in 1868;
Out of Delta Chi Omicron
We established in '62
And became nationally known
As men strong and true.

And here today, at Pittsburg State,
We have come to appreciate,
The fine qualities for success
In intramural sports and scholarship,
With further display of the best
In social lights and showmanship.

We love KSC's most beautiful girls
With straightened hair and those with curls.
We like to plan for things in advance—
Like Christmas Formal and Homecoming Dance.
Dance.

And in the spring, there's even more,
For they say the PIKES just know their score;
With Dream Girl Formal and Founder's Day
Some would say we've gone all the way.
We've summed up the year with laughter and
fun,
But really — you know! We've just begun . . .

Epsilon Chapter of Sigma Tau Gamma

After meeting the sororities, Homecoming became the center of attention with all eyes on Miss Cheryl Cruthchfield of Alpha Gamma Delta. The night of KSC's Homecoming—none but happy Sig Taus could be found. With a reunion of Brothers among the top events, the 1965 Homecoming weekend quickly became history.

December's activities centered around a formal dance with the favors of raincoats proving the Sig Taus to be superior weather forecasters.

April showers bring White Roses to all Sig Taus; the White Rose Formal provides a chance for all Sig Taus to display their dates to their Brothers and a chance for all to use the social skills and etiquette that they were taught as pledges.

The trophy case will attest to the emphasis that the Sig Taus put on Intramural Sports and Scholarship affairs and very few campus organizations can be found lacking one or more Sig Taus in their membership.

Lest one should wonder about the goat whose presence was made at each and every home football game, he's the new official Sig Tau mascot and his uniform was constructed by Miss Barbara* Henderson of Alpha Gamma Delta.

This past year Delta Mu chapter won the Province Award for the "most improved" chapter. This was just one of the many honors received in the past year. Others include the President's Trophy and IFC trophy for intramural sports and first place in campus blood drive.

The TKE's are best known to the KSC campus for their "victory" bell which rings throughout the fall at the football games.

TKE's are active in Greek Activities Board, IFC, varsity football, swimming and baseball, and Student Assembly. John Laws, TKE president is also president of the Junior Class.

Various TKE parties held throughout the year are "Red Garter," "Yard and ½," "Sack Party," the Christmas Formal, and the Red Carnation Ball.

Beta Chapter of *Phi Sigma Epsilon*

The Phi Sigs started the year off with the largest pledge class of any greek organization on campus. To initiate their pledge class they held their annual "Woodsy" with the Alpha Sigs.

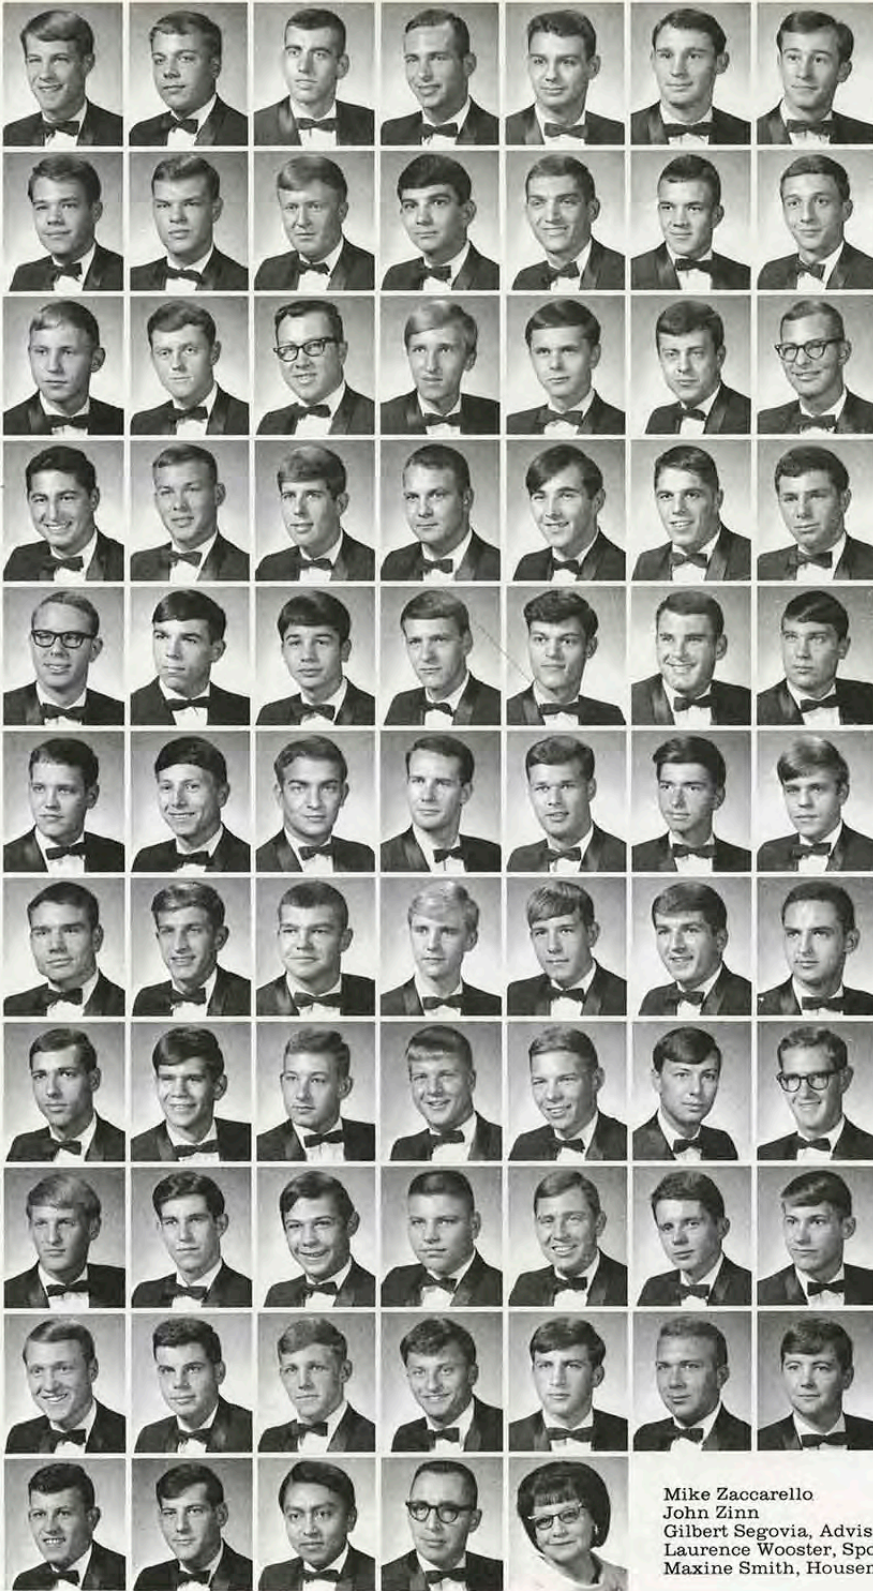

The next event on the agenda was Homecoming. This year the Phi Sigs entered a queen float, a campus float and house decoration. The Phi Sigs' homecoming queen candidate, Miss Connie Herlocker, was chosen as the 1965 Homecoming Queen. You've heard the old saying "all work and no play make Jack a dull boy," well the play came at our big Homecoming Dance where Paul Arabia pulled through again.

Spring brought around the annual Phi Sig Follies. This event was eagerly looked forward to by the entire campus. Last year Miss Judy Pistotnik of Alpha Sigma Alpha was chosen as Phi Sig Follies Queen.

To end the year the Phi Sigs had their annual Belle Ball. That night was a happy one for all, but especially for Miss Jean Cox of Alpha Sigma Alpha, who was chosen as Belle of the Ball.

NEWMAN CLUB

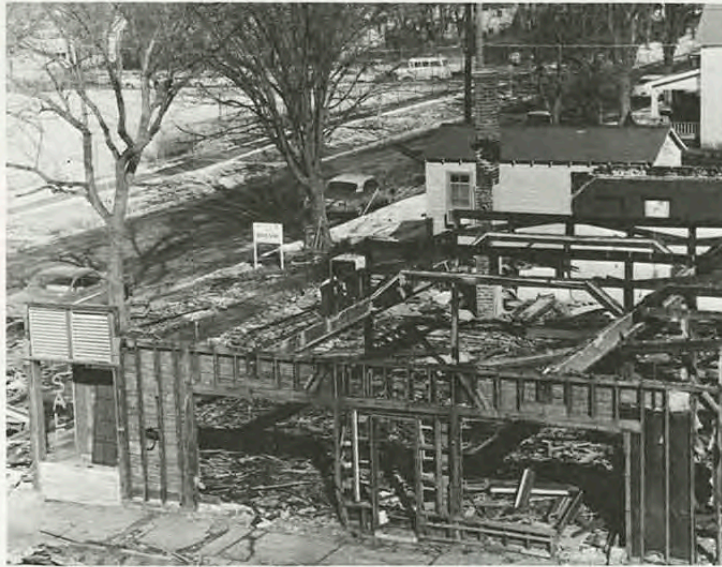

The Newman Club provides religious, intellectual, and social opportunities for both Catholic and non-Catholic students on the campus.

The primary aim of the Club is a religious training program for members to further their knowledge of Catholicism and, thus, to strengthen their Faith.

Through such activities as lectures, discussions, week-end institutes, dances, and intra-

mural athletic teams, we realize the threefold goal of the club.

Pictured below was the Newman Club. They are currently constructing a new club on the same site. Once built, the students will once more have a place to go to relax or for their moments of private prayers. The new chapel will continue to serve the spiritual needs of the members.

STUDENT ASSEMBLY

The Student Assembly is the major governing body of the students at Kansas State College of Pittsburg. Its members are elected at a campus election every spring. This year, under the leadership of Jack Fulton, the Student Assembly worked with student groups and the administration in dealing with such questions as the Book Rental System, the operation of the Student Union Board, the sale of cigarettes on campus and other issues. The assembly has allocated funds from a budget of nearly twenty-four thousand dollars for its projects, and those of other campus organizations serving the student body.

Special projects, such as the Basketball Victory Day celebration combined with the routine tasks of Parents' Day, Senior Day, and Freshman Orientation combine to make a busy year for all members of the Student Assembly.

CIC CHAMPS

Fred Brown dives back into third safely.

The 1965 baseball team was the first in the school's history to win the C.I.C. Championship. This is the first year Omaha has not won or at least shared the title. Kerry Compton's pitching and the team's timely hitting won two crucial games in the District 10 Tournament which allowed Pittsburg to represent District 10 in the south half of the N.A.I.A. regionals where they were finally eliminated. Coach Al Ortoloni was named Manager of the Year for this area because of the fine job he did with the team.

TENNIS

1964

The varsity tennis team ended the season with a record of five wins and six losses in dual meets last year. The team finished strongly by tying for second with Hays in the league meet. Coach Tracey says the future looks bright as all members of the team will return for next year's team.

TRACK—1965

The 1964 track team won every dual meet except the one with Emporia. The relay teams from Kansas State College placed in every major relay they attended. The outlook for the 1965 track team is very good as most of this squad will return.

CROSS COUNTRY 1965

At the conference meet our team placed second behind the powerful Fort Hays team. The prospects for next year are extremely good as this year's team was a young one.

INTRAMURAL ATHLETICS

A very important aspect of athletic life on our campus is the Intramural Department. Varsity athletics bring the fame to our school but intramurals keep the masses in good physical condition. The enormous job of planning the various events and finding referees falls to the men in the Intramural office. These men put in many long hours during the week.

The contests and events planned are mainly

for the male population of the school although some co-educational contests are included in the program.

Each year a trophy is given to the campus organization or group with the most points in competition as tabulated by the Intramural Department. Points are awarded for participation as well as victory. Last year's winner of this trophy was Tau Kappa Epsilon Fraternity.

The door leading into the Intramural office is opened many times by many different people during the course of a day.

FOOTBALL

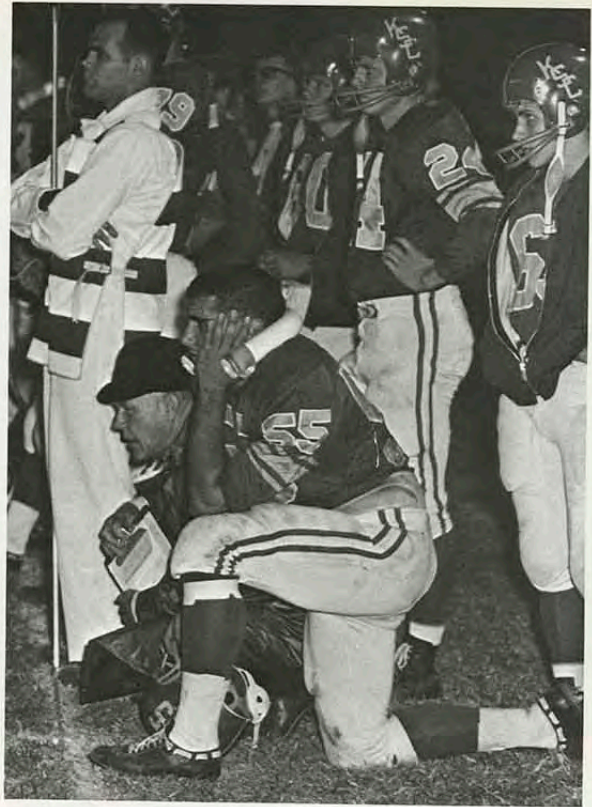

Long Season

The 1965 football team's standing at Kansas State College did not turn out as well as it was hoped as KSC compiled a record of three wins and six losses. This was Coach Carnie Smith's second consecutive losing season after having only one losing season during his first fifteen years here.

The season still had a few bright spots, though, as the Gorillas looked very impressive beating Emporia and defeating Washburn for our Homecoming.

BASKETBALL

Great Expectations

The outlook for the 1965-1966 Kansas State College basketball team is extremely bright with four of the five starters from last year's championship team eligible to play.

The front line led by Jim Chroust, Don Meadows, and Dave Niesgch should be very strong. Substitutes for these three should be better this year with some new faces on the squad and the maturing of some of last year's team.

Even though two backliners, Ken Kersten and Eddie Brown, will miss at least part of the season there is still much depth here because of transfers and returnees.

If these players can work together well under Coach Lambert they can give K.S.C. her second consecutive C.I.C. Championship.

TRACK PREVIEW

The track outlook here at Kansas State College appeared bright. Most of the members of last year's young, but better-than-average, team returned to give this year's squad a solid nucleus. The relay teams, which placed in every major relay attended, were back (almost) in entirety. With the addition of our new young distance men and more help in the weight classes K.S.C. was optimistic of the future.

The team was again coached by Prentice Gudgen who has an impressive record here as a track coach.

This year's schedule was a difficult one for the Gorilla team, but when the league meet arrived the squad was ready to make a good showing for the college.

SWIMMING

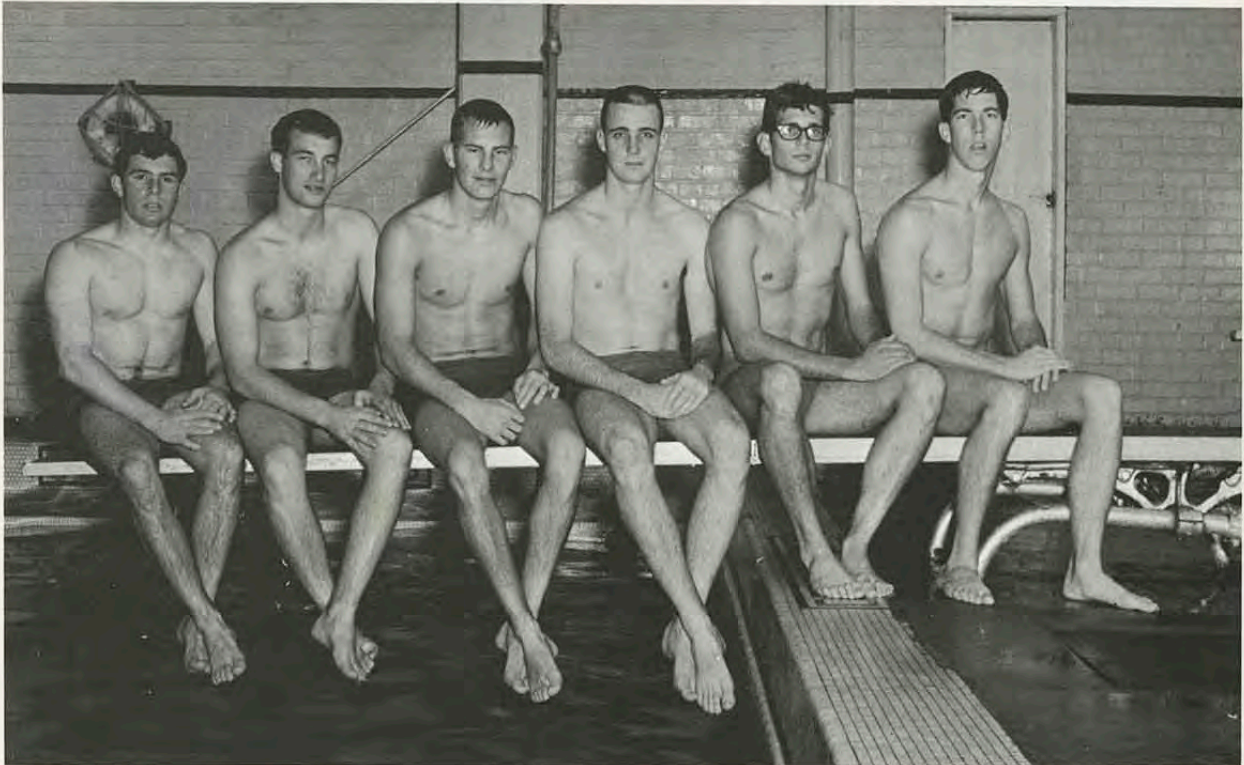

PREVIEW

This appears to be a rebuilding year for the K.S.C. Swimming team. Gone from the squad this year are such names as Zinn and Askins. Coach Joe Murphy should have a team worthy of respect if some of the young swimmers develop like they should. It is hoped that the members back from last year's team will form a strong nucleus from which to build. The team's increased schedule should also be a benefit to the team.

TENNIS—1966

Dr. Tracy, coach of the tennis team, is optimistic about the coming season. With the top three men from last year's fine team returning, he may have good reason to be. Leland Van Scyoc and Jim Robertson, the number one and two men respectively, form a fine doubles team. Doug Campbell appears to be improved this year and will be a valuable asset to the team. It certainly appears that the Gorilla tennis team should have a successful year on the courts.

GOLF—1966

The outlook for this year's golf team is a question mark according to Dr. Thomas, coach of the golf team. With only one man returning from last year's team one would think the outlook dim, but it is reported that some of the new members are very fine on the greens. Dr. Thomas reports that there is a record number of men

trying out for the team.

Some of the better prospects for the 1966 team are Larry Wooten, Gary Rodrick, Larry Crow, and Lynn Erickson. If these members play as expected and some of the other members round into form, the K. S. C. Golf Team will be an extremely tough foe for any opponent.

May 9 and 10	C. I. C. Golf Meet	Topeka

Back Row: Larry Wooten, Coach Thomas, Lynn Erickson.
Front Row: Larry Crow, Gary Rodrick.

Larry Wooten shows his driving form.

Although it is not obvious in this picture, Lynn Erickson is actually using a golf club to sharpen his techniques.

On this shot Gary Rodrick takes a little turf with the ball.

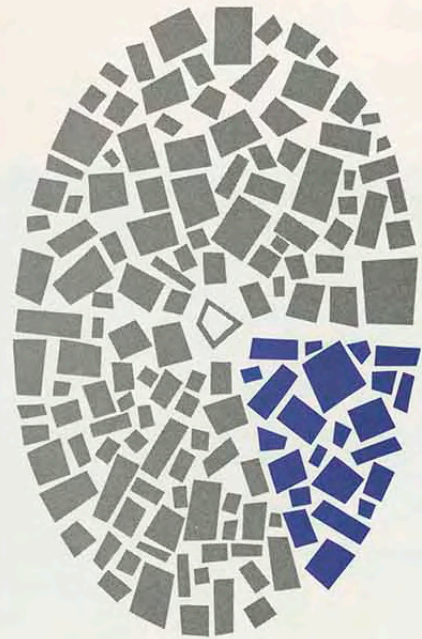

Larry Crowe shows how to examine and line-up a difficult putt.
