Dear Mr. Davis,

Your letter of May 10th was received.

In reply to your question, peace, in my opinion, is the important issue in the world today; the understanding of the USSR helps the cause of peace; the reading of Soviet Russia today contributes to the understanding of the USSR; and finally placing this magazine in libraries seems the best way to put the public to read it.

Your library's name is in the list of the American Library Directory from which I chose a few libraries from each state. Hoping you will feature SRT in your library most sincerely,

Susan Wodruff
