

Bartlesville's Library Board Under City Wing

World's Own Service

BARTLESVILLE, June 15—The Bartlesville Library board, target of many protests and charges here during recent months, has been brought under the wing of the city administrative department, effective July 1.

The change was brought about this week by city commissioners on the recommendations of present board members. The board will be composed of three two-year members and three one-year members. All books and subscriptions will be subject to city commissioners' approval.
