Madison Paige Rexwinkle (1998- ) was born at the Coffeyville Regional Medical Center (CRMC) in Coffeyville, Kansas, on 30 August 1998 to Rebecca Rexwinkle (1979- ). Madison’s birth was normal and immediately after delivery, Madison and mother, Rebecca, were healthy. Madison’s physical, cognitive, and social development progressed typically. Rebecca married Michael Ray Hill (1974- ) in 2000, Michael took on the role of Madison’s father and gained legal guardianship of her. From their marriage, Michael and Rebecca had one other child, Isaiah Michael Hill (2002- ). The family made the small town, Edna, Kansas, in a humble house on the corner with a large backyard that Madison and Isaiah spent many days playing in, home. In Figure 7.1 "Community Typology and Percentage of Population, 2000," Fischer and Hout divide the United States into nonmetropolitan areas, small metropolitan areas of less than 1.5 million people, and large metropolitan areas of more than 1.5 million people. Then, the authors divide these three categories into two different dimensions—center and periphery. Examples are given to distinguish the countryside or village as the periphery and the center as a town of at least 2,500 people within the larger category of nonmetropolitan areas. Similarly, small urban areas are split between suburbs in a small MSA (Metropolitan Statistical Area) and center cities in that same category. Finally, under the umbrella of large urban areas,
communities are also divided by the cities proper and the suburbs
that usually form a ring around the city centers.¹

Edna Kansas falls into the periphery of nonmetropolitan area,
having a population of less than 500. The small community seemed to
work together as a village to raise all of the children in the
neighborhood. Michael’s mother and father lived just 3 blocks from
Michael and Rebecca’s family home, and were very active and
influential in the raising of Madison and Isaiah, as were Rebecca’s
parents who lived on the family farm 7 miles outside of town.

Madison and Isaiah attended the local elementary school and
district high school. Both Madison, and her brother, did very well in
school. Both were in the top percentile of their class in academics
throughout elementary school and high school. Madison played sports,
softball, basketball, track, and cheerleading, but her true passion
through school was theatre. Madison was active in every theatre
production throughout her high school career. Madison remembers her
parents being very supportive of her in everyone of her endeavors.
Her freshman year, Madison met her very best friend, Joli Sue Ellen
Hutto. Joli and Madison were inseparable throughout their high school
careers, they were cheerleaders and in theatre together. Joli became
like a sister to Madison, and her family accepted her as one of their
own. Madison remembers a time when she and Joli were cast as Man #1
and Man #2 in a school play, their characters were silly best friends

Years (New York: Russell Sage Foundation, 2006), 166.
with Scottish accents in a train station. The play was a hit and the girls came into character easily.

In Figure 2.2 "High School Graduation Rates for All and by Gender, Region, and Racial Ancestry, by Year Person Turned Twenty-One," the authors show the rapid incline of graduation rates leading to a steady plateau on a chart. In the 'gender' portion of the chart, it is displayed that more women graduate each year, with the exception of 1960. The 'region' chart shows that the West has the highest graduation rates, while the South has the lowest. In the midwest, graduation rates varied by region.²

Labette County High School is classified as a 4A school with an enrollment between 265 and 791 students. Madison graduated with a class of 98, however, only 95 of her classmates were allowed to walk at graduation, as 3 boys in her class were being punished for their senior prank of setting chickens loose in the school hallways.³

After graduating from Labette County High School in 2016, Madison and Joli moved into a small apartment in Joplin, Missouri, where they attended Missouri Southern State University. Living in Joplin was a big change for Madison. Joplin is a city in southwest Missouri with a population of over 50,000.⁴ After 2 years, Madison moved to Pittsburg, Kansas, and transferred to Pittsburg State

University. In Pittsburg, Madison found a passion working for Crawford County Mental Health with children who are diagnosed as severely emotionally disturbed. She continued to develop her professional skill set as a Children’s Mental Health Assistant by leading an afterschool psycho-social group and working in the Pittsburg Public Schools as an Attendant Care.

Unfortunately, in 2019, Madison and her family suffered a great loss when Madison’s best friend Joli passed away in a tragic car accident. Madison filled her time with work and school, but struggled to move on after the loss of her best friend. Madison continues to live a life that will honor the spirit of her friend and remains in contact with Joli’s family as they grieve this great loss together.\textsuperscript{5}

Ala. Rebecca Lynn Rexwinkle (1979– )

Rebecca Lynn Rexwinkle was born on 23 May 1979 in Coffeyville, Montgomery County, Kansas, to Cheryl Kay Volz Rexwinkle (1958– ) and Ronnie Gene Rexwinkle (1954– ). She had an older brother, Matthew Paul Rexwinkle (1975– ). Born after Rebecca was Kelly Ann Rexwinkle Rupert (1986– ) and as a surprise a few years later, Andrew Todd Rexwinkle (1990– ).

Rebecca’s family lived on the family farm in Craig County, Oklahoma, where they spent summers working in hay fields and the garden, and winters tending to livestock and farm chores. The family was very poor and relied on their own land and livestock to provide for them. Due to their circumstances, Rebecca’s family was very close and the siblings spent most of their time together and with their cousins. Rebecca often remembers spending time with her grandparents and helping her grandmother care for the other children while her parents were working.⁶

⁶ Rebecca Rexwinkle, interview with Madison Rexwinkle. 10 April 2019.
Rebecca and her siblings attended school in Welch, Oklahoma. Rebecca was never exceptionally good at academic works, but always worked very hard and tried to succeed. In high school Rebecca was active in marching band, color guard, choir, speech and debate, Technology Students of America, Future Homemakers of America, and of course, because she lived in rural Oklahoma, FFA.\footnote{Ibid.}

In school Rebecca befriended Shelby Wynn and the two became inseparable, more like sisters than friends. Rebecca remembers skipping school with Shelby and spending nights at bonfires and getting into trouble together. Their friendship endured through adulthood and the women are often found together and supporting each others children.

After graduating from Welch High School in 1997, Rebecca attended Coffeyville Community College, in Coffeyville, Kansas, taking classes to be an EMT. In 1998 Rebecca became pregnant. In Figure 6.1 "Shares of the National Income, by Income Segment" the authors of Century analyzed the total income provided by all of the related members of a household, including single households from 1949-1999 based on information gathered from the decennial census. They measured income before taxes and also adjusted data to account for inflation and family size in order to assess standard of living, which is referred to as the "adjusted family income". The authors found that in 1949 the median American had an adjusted family income
of $19,000, in 1999 the median American had an adjusted family income of about $53,000.  

When Madison Rexwinkle was born, Rebecca Rexwinkle was a young, single, working mother. The family lived well below the median adjusted family income. Rebecca worked a minimum wage job, which was only $2.65 in 1998, and was attending LPN school while trying to raise her daughter. Even when working full time, Rebecca fit into the lowest 40 percent share of National Income, and depended heavily on the support of her parents and siblings to assist with Madison's upbringing, although her extended family was also living below the median American adjusted family income of the time. Rebecca was also thankful to be eligible for government assistance, such as Food Stamps and the Special Supplemental Food Program for Women, Infants, and Children (WIC). To make a better life for her young family, Rebecca went to VO Tech in Miami, Oklahoma, and received her LPN.  

Rebecca and long time friend Michael Ray Hill (1979- ) started dating in 1999. They were married in 2000 in Edna, Kansas, at the United Methodist Church. Together they made a home and had one other child together, Isaiah Michael Hill (2002- ). In 2003, Rebecca and Michael were separated and divorced. Rebecca relocated with her children to the family farm in rural Welch, Oklahoma, with her parents Ronnie and Cheryl. Shortly after, Michael and Rebecca reconciled and he joined his family at the farm. The family spent

many years living happily together. Michael worked as a traveling pipefitter and welder for contractors, until finding a comfortable job with CVR Energy in Coffeyville, Kansas. Rebecca worked as an EMT instructor for Coffeyville Community College, then as a firefighter/paramedic, before going back to school to be a Registered Nurse.

Michael Ray Hill (1974– ) was born in Coffeyville, Kansas to Candy Lee Vest (1955– ) and William Leonard Vest (1952– ). They had one other child, Michelle Renee Hill (1976– ). The family lived in Coffeyville, Kansas, for a time before moving to Edna, Kansas. Coffeyville is small town in southeast Kansas with a population of less than 10,000. Coffeyville is rich in history and is best known for its connection with the infamous bank robbers, The Dalton Gang. Michael remembers his cousins and friends constantly being at his parents house and enjoyed growing up with a close family.

Michael and Michelle attended Edna Grade School and Labette County High School. In high school, Michael was active in Fellowship of Christian Athletes, FFA, wrestling, football, track, and cross country. Michael remembers getting in a lot of trouble in high school and terrorizing his younger sister, Michelle.10

10 Michael Hill, interview with Madison Rexwinkle. 17 April 2019.
After graduating Labette County High School in 1993, Michael attended Coffeyville Community College for a short time. He later entered into a serious relationship with Rebecca and they began their family together. After living together for 12 years, Michael finally moved off of the Rexwinkle family farm and back to Edna, Kansas in 2014. Michael continued to provide for and support Madison and Isaiah. Michael’s sister, Michelle, played a very active role in Madison and Isaiah’s life. After receiving her degree from Washburn University and teaching elementary school in Topeka, Kansas, Michelle moved back to Edna, Kansas, to work as an early childhood specialist and married her soulmate, Jerry Dale Gregory (19 - ). Michelle remembers Madison spending many evenings at her home, sharing about their lives and planning big ideas, Michelle and Jerry always believed in Madison and supported her in every activity and endeavour.

In 2017, Michael rekindle a relationship with his middle school sweetheart, Ashley Baunhofer (1975- ). They were married a year later in 2018 in a small ceremony in Eureka Springs, Arkansas. Ashley joined Michael in Edna, Kansas with her two children from a previous marriage, Keller Thomas Wilson and Katherine True Wilson. The family outgrew their small Kansas home and moved south to rural Welch, Oklahoma, where they had plenty of room to grow.
