To members of U. M. W. A.

Dear Sir and brother,

Upon request of a member I will give you a statement of how we stand.

Local Union 3822 came on strike April 1, 1924, and held up with 29 members, the rest going to work open shops until drove out two months ago and was issued a charter by the international Sec., over the old charter 3822 and now the new Local Union will get first jobs being at the mine leaving our old fellows to the last, and are completely ignored.

It seems as the board are in favor of the way they are doing. Local Union 3822 is extorted and in good standing, and would be obliged for outside help.
