

# Metropolitan Life Insurance Company

Haley Hiske, President

JAMES E. KAVANAGH  
SECOND VICE-PRESIDENT

New York City October 17, 1925.

Mr. Earl Maxwell, Recording Sec.  
United Mine Workers of America  
District 14  
Mulberry, Kansas

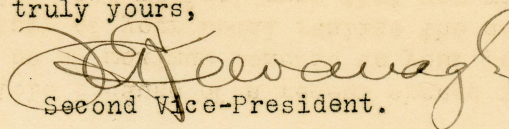

Dear Mr. Maxwell:

You have probably been informed through your own Organization of the arrangements which have just been completed for insuring the members of District 14, Union Mine Workers of America under a Group Insurance contract with the Metropolitan Life Insurance Company.

The plan is very simple. We will provide protection without any medical examination or any red tape of any kind to all of your members. Benefits will be paid either in case of death for any cause, either on or off the job, or in case of Total and Permanent Disability before age 60, for any cause either on or off the job. The only information we need is the name, date of birth, residence and beneficiary of each member, and individual certificates will immediately be made out and sent to your members.

This contract is possible because of a recent change in the Insurance Law. We know it will be of maximum benefit to your people, that you as the Recording Secretary of your Local realize the needs of your people for this protection, and we feel sure that you will heartily recommend it to them.

Very truly yours,

  
Second Vice-President.
