*Originally produced in 411 B.C. at the Greek festival of Lenaea after a series of defeats suffered by Athens in the Peloponnesian War, Lysistrata has flourished as a perennial favorite on the world stage. Irrepressibly fresh and ruthlessly funny, Lysistrata has been adapted in innumerable ways to relate to current conditions.*

*We have made a number of minor changes in dialogue and references in order to convey the author's meaning. In our production we have taken advantage of the trend in popular music, known as Rap, to provide the "songs" with a rendition close to their original impact. The topical references which mystify contemporary audiences have been translated into references which may convey more of their meaning, but are not accurate in their Athenian context. Current states of unrest in the world are interpolated into the dialogue to provide the kind of feelings evoked in the Greeks.*
