Dear Santa,  
You just keep that certain person in Europe there, and I'll be satisfied. I guess you know why—  
Pretty please,  
Edwin Ryan

Dear Santa,  
I've never been a firm believer in you, but if only you will send me a class that appreciates my talent of — need I say? — ear wiggling, I will start in believing right away.  
G'by  
Maude Laney

P. S. For goodness' sake don't send them collect, 'cause I've spent my Christmas savings.  
G'by again,

Dear Santa,  
Please don't think me interested, but I would like to know just how I stand with Bette Lu, not that it makes any difference but—  
Longingly yours,  
"Snootys Wootys" Alsop

Dear Santa,  
Please send me an extinguisher for that perfume that rained on me at the Columbus game. It HAUNTS me!

Yers in a hurry,  
Th' Debaturs

Dear Santa Claus,  
There comes a time in every man's life when he feels the need of three things. They are, namely: A loaf of bread, a jug of wine, and a shave. Please, dear Santa, won't you bring me some whiskers so I can try my new safety razor?  
Smitty

Dear Santa,  
I'm asking in the interest of dear old P. H. S.  
We have a lot of wishes and wantings, yes, yes.  
But we'll only ask for things which are so necessary  
And presents which without discomfort you can surely carry.  
Now, Santa dear, there are so many girls  
Who have pretty looks and lots of curls  
But would like for you to send them  
A football hero—or just a boy friend.  
Poetically?

## Mary Christmas Aids Santa Claus With Big Parade

Maxine Humbard, Senior, Plays  
Feature Part in Annual  
Procession

### Well Represented

High School Furnishes Attendants,  
Band, Characters, and Others  
For Festivities

(Maxine Humbard)  
Amid the fluttering of the snow, Santa arrived in Pittsburg Tuesday afternoon with his Christmas parade in full swing. Even though snow covered the ground, a much larger crowd than the one last year witnessed the largest and most colorful Christmas parade ever presented here. Fairly and seemingly lived again for adults as well as children as the many familiar characters of Mother Goose moved down Broadway.

One of the main features of the parade was Mary Christmas in the personage of Maxine Humbard, senior. With her were her four attendants, Frances Hunt, Rosalie Magner, Lois Troxel, and Mary Jane Stapp, seniors.

The parade was started at the high school headed by the state patrolmen who cleared a path for the coming procession. The city commissioners came next with the College band close behind.

The parade from that point on was made of various personages from Fairyland.

That part of the parade was led by Miss Mary Christmas and her assistants. She rode in a cutter drawn by two trained ponies. She and her assistants were dressed in Christmas robes of Santa's favorite colors "red and white."

Throughout the parade were many different funny clowns and grotesque figures, whose funny actions kept the onlookers laughing. These figures were impersonated by the following P.H.S. students: James Zimmerman, Carl Mathis, Arthur Prince, George Seeley, Jack Paulin, Emanuel Manfre, Charles Ray, Tom Loftus, Eugene Andrews, Bert Nunn, Bill Sollitt, Robert Sizemore, Thomas Mann, Arthur Fanska, Merle Hadlock, Jack Roderick, Hillard Pierce, Louis Reineri and Joe Stephens.

The Fairyland character parts were taken by the students of the junior high and grade schools. Some of the characters seen were Peter, Peter Pumpkin Eater, Mary and her little lamb, Goldenlocks and the three bears, Red Riding Hood, Mother Goose Cinderella, Little Bo Peep, Old Woman in the Shoe, Minnie and Mickey Mouse, Mary Quite Contrary and various others.

Others from the high school were The Three Wise Men, Harold Fields, George Bartholow and George Buffington and Martha Ruth Howard and Clifford Black with a jirriksha.

To climax the parade, came old Santa in his red sleigh bidding "Merry Christmas" to his many admirers through a loudspeaker. After the parade Santa gave candy to the children and talked to some of them.

Five groups furnished music for the parade. They were the College band, Lakeside junior high, McCune high, Arma drum corps and P. H. S. band.

## So There Is a Santa Claus--

—Verla Hammick  
 Evidently Elmer is a firm believer in Saint Nick 'cause he's been rather ambitious and has searched out a great big stocking for old Santie to fill—And he has his letter already written, too.  
 For the benefit of those who don't know, Elmer is proud to announce that there are only fourteen more days 'til Christmas! (Confidentially — you better start making good impressions.)

### I ONLY HEARD

(Jacqueline Gore)

Someone once said, "When they fall, they fall hard." That at least seems to be the case with Paul Resler. He's got it so bad that he can't seem to do anything right. He has a particularly hard time in orchestra because she's in there too. In case you haven't guessed who she is, it's Albertine Scott. For goodness sake, give the boy a break, Albertine, so that he can get some work done.

We're beginning to think that maybe Anne Nettels doesn't mean everything she says after all. At least she went to the DeMolay dance with Marion Buckley after she had said things quite the opposite.

Bette Lu Williams is continually looking for her "Snooty Wootsy" Alsup, who has taken the place of Leonard Schroeder. "Snooty Wootsy" bet that he could "partake of the usual salutations" within a certain time. The question is, did he? How about setting the argument for us, Betty Lu?

Girls! Attention! We're going to let you in on a secret! Jack Crouch, Johnnie Duncan, and J. B. Stacy have been going to dancing school and have learned how to do the Big Apple. We're sorry that there aren't enough to go around but first come first served. Here's your chance to be popular, boys. Learn how to do the Big Apple and be the life of the party—more or less.

Did you know that Mary Jane Keller is a jail-bird? One of the DeMolays took his spite out on poor Mary Jane during the recent City Day and put her 'in.' Mary Jane, however, has a system that never fails because a boy just can't stand to see a girl cry. (?) But at any rate, it brought the desired results since Mary Jane was quickly released. But you still have a record, Mary Jane.

Although Helen Caskey and Bill Magie know that the course of true love never runs smoothly, they can't stand the bumps. They have decided to call the whole thing off.

June Walker is still paying for a sun bath that she took last summer. While she was stretched out so peacefully, a candid camera fiend, Bob Akey, by name, came through the hedge and took a shot of June, which is the envy of all candid camera men. If anything were ever candid, that picture certainly is! The last report was that June had the negatives and therefore stopping production. What a pity, Bob. You could have made a fortune on that picture alone. But next summer's coming.

Scoop!!!! or "Sophomores at play (with Earl Perry)" A group of sophomores and Earl while waiting at the Methodist church, decided that it would be fun to play "wedding." They also decided that Lois Mae Williamson and Earl could be the bride and groom. Raymond Crimmel and Mardell Mangrum attended the couple. Marjorie Ogan read the ceremony while Marion Hart played the soft melodious strains of chop sticks. Just as the couple were putting the finishing touches to the ceremony, they were interrupted by the parents of the pianist and the minister. We don't know what they said in the way of explanations but we are probably safe in saying that their faces were really RED!!!!

### THROUGH THE KEYHOLE

(Irene Brannum)

Dutch Nogel really seems to be making the grade. He has rated pretty high lately. Dorris Hudson asked him to go to a dance some time ago, and how Julia Anne Pogson wants him to go to a party with her. Dutch, is it because of your personality, hand-someness, or just because you played football????

Congratulations to Lavon Casterman! She has landed Jerome Marshallinger. It was a tough job but she stuck to it. The two are now going steady.

There is a lot of hunting going on around here lately. Claire Lucille Hubert was hunting for Jimmy Kelly the other day and asked his sister where he was. She told Claire he had gone hunting. "Game or a dame?" she indignantly asked!!!!

Flash!! A budding new romance!! The happy couple are none other than "BeBe" Coles and George Newcomb. They gave the turkey some competition Thanksgiving by being together all day. They are going to the Sub Deb dance together too. It isn't spring but they don't know it!!!!

Double flash!! Chivalry is not yet dead and it appears that knighthood is still in flower—Lorence Lance and James Duncan staged a great battle over the lady of their hearts. Thus Margie Ford (sophie) is just that thr-rilled about it all. The only thing that is not quite clear is which gallant young man won her favor????

Remember that item about "All quiet on the Ryan-Magner front?" Well, it may not be so quiet after this. It seems Eddie has been having a little fun on the side—while the front wasn't looking!!! If you want to see him blush, and how he can blush, just ask him if he knows a certain girl from College high.....

Betty Jo Roy and Bob Rothrock, who decided to call it quits some time ago, have now decided to start all over again. . . . They say they just couldn't get along without each other....

What is this secret feud between John Buess and Travis Turner? You can count on it being either a girl or maybe even two girls. Boys, you better watch out, that's dynamite you're playing with!!!!

Why did Barbara Barkell jerk that item about her very good girl friend and a blond headed boy??? It has a lot of people guessing!!!!

Cupid must be taking a vacation around here!! Florine Francis has given Harry Mallard's ring back the Maxine Douglas—Ralph Taylor affair's not going so well. Dear, dear Cupid, don't forsake poor old P. H. S., it is almost Christmas. Think of the girls who won't get Christmas presents!!!!

### WHAT OTHERS SAY

#### ROCKNE'S PERSONALITY

Knute Rockne was called on unexpectedly at a banquet to make a speech. He rose and remarked that people often asked him what he said to the Notre Dame players between halves of a close game, and he now volunteered to tell the diners what the events in the dressing room were like.

Then he began the picture of the atmosphere of the dressing room with its fumes of liniment and sweat, its nervous tension and uncertainty. Steadily, Rockne went on, gradually weaving his magic spell, quoting his own pep talks. Rhythmically he dropped to the chanting lines: "We are going out there and fight, FIGHT—and WIN!" Suddenly he demanded of his hearers with smashing abruptness: "Are you WITH me?"

En masse the whole banquet rose and shouted as one man, "Yes!" Then they looked at one another sheepishly and slipped back into their chairs with confusion as they realized how they had been tricked, how they had lost themselves completely to a magnetic personality playing on mass psychology.—Readers Digest, reprinted by Ralph Cannon in the Esquire.

### PUPIL PORTRAITS

The boy this week came here from Lakeside. He is a member of Mr. Ramsey's home room and Mr. Carney's glee club. He will play the part of Antonio in the opera. His favorite sport is baseball. About five feet ten inches, he has brown hair and eyes. His name is in this jumble.

 Alta Mae Williams—Their personality.  
 Dorothy Jeanne Zellmer—A sense of humor and someone who doesn't gripe all the time.

Doris Brinkman — Personality, friendliness, cleanliness, good habits and will-power.  
 Mary Jane Keller—Consideration for their friends and teachers.

Bert Nunn—A sense of humor and an instinct for originality.

It takes a lot of shaking and calling to make the rising generation rise in the morning.

#### LADIES OF THE PRESS

by Ishbel Ross

As well as giving a most interesting, historically correct account of the women in the newspaper "racket," Miss Ross makes this book one of great appeal to every reader with discriminating tastes.

The author describes how such successful newspaper women as Dorothy Thompson, Dorothy Dix, Maureen McKernan, Nell Brinkley, Doris Fleeson, Ann O'Hare McCormick, and Genevieve Forbes Herriek started out. Miss Ross recounts the manner in which women in this field originally began. When Nellie Bly went around the world in 72 days and some hours in order to get, first hand, the story of her round-the-world trip, the eye of the public immediately rested upon her, the first woman journalist of America. At first, editors were sceptical of women's success in this field, and flatly refused to give them jobs, but gradually they realized a woman's importance to the staff. Thus was the beginning of the "ladies of the press."

Real newspaper life is pictured and, while no illusions as to it will be entirely intact at the end of the book, it does not detract from the reader's interest. Be sure to read it, for it is well worth the time spent.

### POET'S CORNER

#### ACHIEVEMENT

"You cough more easily this morning, son,"  
 The kindly doctor said  
 To the miserable, suffering sophomore  
 With the bad cold in his head.

The sophomore rose up in his bed,  
 A pitiful, touching sight.  
 "Yes, sir, I should," he made reply,  
 "I've been practicing all night."

### THOUGHT FOR A DAY

Luxury makes a man so soft, that it is hard to please him, and easy to trouble him; so that his pleasures at last become his burden. Luxury is a nice master, hard to be pleased.

Luxury may possibly contribute to give bread to the poor; but if there were no luxury, there would be no poor.

To the business man: Do you have an ad in this week's paper? If not, don't you think you should help your business next week by putting an ad in The Booster, be it large or small?

There are several reasons why you should advertise in your school paper. First, your ad is noticed not only by students, but is read in nearly 1,500 homes. Second, you are loyal to your school by supporting its paper. Third, our advertising rate is the lowest of all in the state for a paper of its size. This, of itself, is a great consideration.

### INTRAMURALS START

The intramural program set up by Coach F. M. Snodgrass is a great step toward the betterment of our school. This program provides an opportunity for any boy to engage in any sport he wishes. In former years only those boys who were good enough to make the school team had a chance to engage in athletics. Many boys who had a desire to play were not allowed to because they did not have enough natural ability. Now they have the opportunities and facilities to enjoy themselves as much as any member of the school team.

This setup also benefits boys in that it teaches them sports they can engage in after they graduate from school. Few boys continue to play football or basketball, but a fellow can continue to participate in such sports as golf and tennis as long as he cares to. Last year the setup was a great success. This year's program should be more successful than ever before.

### WHAT IS A SNOB?

A snob is one who is servile to persons of wealth or positions and supercilious to those whom he considers inferior.

Now, who can prove that anyone should be a snob? If every pupil of our school were snobs it would not be a fine school. Most people overlook the meaning of snob and should take time to look in the dictionary.

A person who is not friendly towards every one is a snob. Even if some people don't lead good lives or take part in undertakings of the school is no reason whatsoever for you, who may not be any better in other ways, to snub them. You don't have to be a snob to choose the right associates! You don't have to have a low mentality or a dirty neck in order to be friendly with someone who does! The word friendly means to become acquainted and not be hostile! Therefore, if you are friendly with someone, you do not have to be with him or her constantly and be affected by what ever undesirable traits he or she might have.

### "LET GEORGE DO IT"

"Heck! I just can't seem to catch on to these darn chemistry problems! They have to be in tomorrow, too. Well, I guess I'll go ask "George" to do them. He always helps out a pal."

Away goes our hero down the hall, whistling blithely, conscious of the fact that he need worry no longer about his problems.

And what about poor "George"? Well, since he couldn't let down his "pal," he works far into the night on those problems, and perhaps neglecting his own work.

Those of us who are like the hero—why don't we learn to think for ourselves? Why don't we have a little consideration for all the obliging "Georges" who save us all at one time or another? After all, when we are out on our own, there'll be no one as helpful as our "pals." So let's think and depend on ourselves for a change, and see if we don't get along better!

### P. H. S. Member National School Debaters League

The National Forensic League is the debate society to which the leading high schools of the country belong. Individual debaters may become members of this league provided their high school is a member. The students' rank in the league is determined by the number of points the person has. Points are received for each debate participated in and also for extemporaneous speaking and oratory contests.

Debate coaches also get points. They receive them from the number of debates won or lost by their debaters. In 1936-37 William Row, P. H. S. coach, ranked first in the National Forensic League with the greatest number of points in the United States.

### Swift Seals Sale

Reports of the annual Christmas seal sales show that last year's goal is going to be surpassed by a large surplus. With over 250 workers in this country, officials say, the sales total should be well towards \$2,000 by the end of this week. More than half of the workers are campaigning in Pittsburgh and so far they have collected around \$560 while last year the Pittsburgh group turned in \$900 or well over half of the \$1875 total. The amount received is not final and the campaigners will complete their extensive work the end of this week. Until then, no final returns can be received.

We, the girls of P. H. S., feel terribly slighted. Didn't anyone ever stop to think that the girls of our school are every bit as smart and talented (if not more so) than the boys of our school? We are speaking of the write-up The Booster gave the boys of P. H. S. that were devoting their time and money to the noble art of "picture taking." Not one word was said about the girls who have the same interests in mind.

Jeanne Stevens and Pauline Swab are our representatives. They have been taking pictures around the high at all the recent football games. Pauline has not been active for several weeks because she has been waiting for some new equipment that she plans to purchase soon.

## Roosevelt Junior High Boys Now Given Varied Programs For Manual Training Work

Editor's Note: From time to time, in pursuance of its policy to give publicity to evidence of progress in the Pittsburg city schools, The Booster will print articles regarding various departments in the junior high schools. Information for these articles will not be solicited by this paper, but will be gathered by a reporter if the proper authorities of the schools will notify the editor or Mr. William Corporon, journalism instructor.

(Maxine Humbard)

Boys in Roosevelt junior high now have a new introduction into manual training work according to Harlan Price, instructor. Instead of taking three years of woodwork the boys are now given a varied program in which they learn of other things as well as wood.

In the seventh grade they are taught the essentials of woodwork for eighteen weeks, during which time most of them become fairly skillful. During this period the beginners make small articles, puzzles, wastepaper baskets, book racks, tie holders and broom holders. In order to arouse a new interest in their work Mr. Price has had a new bulletin board and display cabinet put up. When a boy finishes one of his articles, it is put on display for one week; therefore the boys are interested in doing their best.

The seventh grade course is similar to the course of manual training in

any school but the difference is in the eighth year. The first nine weeks of this year are spent in the drafting room studying mechanical drawing. The second part is given to the study of home mechanics, a course useful to anyone. Here they learn how to repair all kinds of broken furniture including learning to upholster, repairing of screens, locks and many other articles.

In the ninth grade the boys learn something that any person should be proud to know and that is work with metal. This is a new course to be offered in any school. Their first work with metal is experimental—on empty tin cans out of which they make cookie, biscuit cutters, and funnels. When they become skillful, they are instructed with copper, out of which trays and ash trays are made.

This work covers nine weeks and the second period is spent in studying electricity, another new subject for junior highs. In this study they learn of simple jobs of wiring, wiring a doorbell, and making a doorbell.

After taking a course of this type, a boy is not tired out on woodwork and he also has valuable knowledge of these other subjects. The Roosevelt school has a complete line of metal working equipment including a slip roll, forming machine, bar folder and three stakes.

Mr. Price is looking forward to bigger and better success with his boys when he gets his new shop in the new building. He says it will be entirely new and modern.

### EBENEZER

—verla Hammick

Up before breakfast, an unfortunate circumstance, but it could not be avoided. After a cold tub (very cold —T-T-T-T) I sat down to a hearty breakfast consisting of three tablespoons of black tea (very weak) and two crumbs of melba toast. Left the table very much de-freshed. The doctor says he had to put me on a diet. I don't know whether I'll diet at home or some place else, but it won't be a natural death, I'll hold the M.D. (my diet) responsible. My doctor really has the most uncontrollable temper. I went up to his office to get cured and he nearly killed me. You see, it's a short story. I was sitting in his office tuning up my ah-h-h-s. Pretty soon the doctor comes in and looks me over and then prescribes a diet of orange juice and lettuce. And I swear to this day I can't figure out why he nearly exploded when I asked him if I took them before or after meals.

### G. R.

At the G. R. party Tuesday, Dec. 2, prizes were won by teams, and individuals. Dorothy Keith won first prize in the amateur contest while Maxine Scott won second. The four little sisters wearing the cleverest costumes were Margaret Lee Starbuck, Charlotte Sparks, Anita Ray, and Naida Chandler. Refreshments were served to those present.

### STEPHENS' GROUP GIVES PLAY AT G. R. MEETING

A 1-act Christmas play, "Christmas Magic," was presented to the Girl Reserves Wednesday, Dec. 8, under the direction of Miss Sara Stephens.

The following cast was picked from Miss Stephens' G. R. group: Helga—Margaret Agnes Nuylor; Mother—Ida Louise Rush; Miss Delmont—Jacquelyn Smith; Miss Claire—Margaret Lee Starbuck; Marie—Elanda Buxton; Mary—Barbara Gohr; Eleanor—Betty Gohr; Gloria—Claire Lucille Hubert; Ametta—Lorraine Shields.

Dr. James A. Naismith, now professor at K.U., invented basketball at the Springfield, Mass., Y.M.C.A. in 1891.

### Student Council

The council met Tuesday morning and discussed the problem of unruly people in the halls and on the steps. The council and the proctors have constantly warned the offenders but without results. The council will take steps to remedy the noise and cutting up in the halls.

The social welfare committee sent a letter of sympathy to Bailey Williams, vice president of the student council, because of the death of his grandfather.

### RHYTHM AND RHYME

I Still Love

I still love to kiss you good night The thrill of you holding me tight Grows ever sweeter, the years in between

Since first I kissed you when you were sixteen.

I still love the touch of your lips I can't get too much of your lips I know when your hair is snowy white

I'll still love to kiss you goodnight.

### Off With Their Heads

Let the blockhead be confounded Who declares "I almost drowned" Every time they say "fore-head," Send them supperless to bed. All of the "mischievous" imps Should be dropped from soaring blimps.

The blatant "athletic" feller Must be locked up in the cellar. If anyone should say "attracted" Let his liver be extracted.

### FASHIONS AND FADS

A noted authority says that the female of the species looks less deadly, and therefore more attractive to the boys, in blue. Any shade of azure makes one look angelic, or so it is said.

The halls are becoming so noisy with the din of many stripes and plaids in boys' clothes, that one is surprisingly successful if he gets so much as a second glance for his new shirt. No matter how hard one tries for an unusual effect some one else already has it! The only solution yet reached by even the most renowned of renowned sartorialists is to dress with great attention to details. For an example, hat brims are wider this year than last, but the cow-boy flavor is to be avoided by just the fraction of an inch.

If one would be attractive to all boys, one doesn't wear green. For, though some like green it isn't the universal color that blue is.

The newest in overcoats is the short one which is just longer than the suit coat. Wonder how the boys will go for that?

"Shoes and ships and sealing wax and cabbages and kings." All these and a thousand more articles dangle in bunches from the wrists of fair femmes. The small pseudo ivory figures are rapidly taking the place of last year's gold and silver "lucky" charms that were so numerous.

Though Kansas is noted for its lack of mountains, there appears to be no lack of enthusiasm for the Alpine sport. For the latest innovation in the way of footwear of the P. H. S. campus is the ski boot.

Those new, soft, silky, ear muffs that are so brilliantly colored should keep ears much warmer than the less noisy ones. They also attract more attention. The girls should really go for these snitziest of ear warmers.

## Corporon Five Drops Close One By 23-20 Score

The Huffman basketball quintet took first place in the preliminary double elimination intramural tournament by defeating the Corporon five in the finals Tuesday night, 23 to 20. The tilt was run off as a preliminary to the Miami-Dragon conflict in Lakeside gym.

It was a game interspersed with fouls in which Corporon's Cagers went down before the onslaught of Huffman's Hoopsters. In the closing minutes Jack Broyles tallied the winning score for the victors. In a thrilling finish, Gordon Dunn snaring a long pass tallied for the Corporon team, but the final whistle was a split second sooner.

Neither team had more than a 2-point lead until the closing seconds of play. The score at the half stood at 11-10 for Huffman. Throughout the entire game Huffman's team showed a strong defense to stave off determined drives.

Broyles was high point man with a total of twelve points.

### P & W STAFF MEMBERS HEAR PLANS FOR BOOK

Members of the Purple and White staff held their first meeting Monday afternoon. Mrs. Dora Peterson outlined the work that the various members will do on the yearbook.

Students are urged to get the receipts for their pictures before the Christmas holidays so that the pictures can be taken during the vacation.

### RED CROSS REACHES GOAL IN RECENT DRIVE

Although the final report has not been made, the Red Cross drive has passed the goal of \$6,000. The figure up to date totals \$6,056. The drive began Armistice Day. J. B. Townner, roll call chairman, said that between \$300 and \$400 remains yet to be collected. A membership quota of \$2,000 has been passed.

Mr. Townner believes that this year's roll call has been the most successful in a number of years. He complimented the work of E. D. Hennberry, chairman of the Crawford County Red Cross in outlining the campaign and organizing the workers.

**Band Benefit**  
Feb. 3 has been chosen as the date for the annual band benefit performance. This program is presented in order that the proceeds may help meet band expenses for the year. Gerald M. ### ZERO HOUR APPROACHES AGAIN FOR PUPILS

"What did you make in government?"  
"I think that teacher was mean for not giving me an 'A' when I really deserved it."

These expressions were heard roundabout the corridors today, as the students of P. H. S. received their grade cards for the second time this year. Some students had happy looks on their faces, while others wore that tell-tale look of failure.

Don't give up yet, you still have four six weeks left!

## Purple Defeats Miami Wardogs In Hot Battle

Dragons Start Long "Trip" Schedule on Tigers' Court Next Friday

The high school Dragon basketball team avenged a gridiron defeat last Tuesday night when they whipped the Miami Wardogs, 28 to 24, in a closely fought battle on the Lakeside court. Edwin Ryan, speedy forward, led the Pittsburg team to victory by caging five field goals for a total of ten points. Other players up to form were Alfred Steele, John Lance, and Bud Fidler.

The Miami team, collecting mostly on free throws, forged ahead in the early minutes of the first quarter with six points before the Hoffman cagers could solve the "Merry-Go-Round" offense, and come back to lead at the first quarter 7-6.

Miami's only threat came in the closing minutes when two field goals by Bob Weir put the Miami team only three points behind. But Bud Fidler and Joe Begando converted two free throws to put the score out of reach until the bell sounded, ending the game.

The Dragons take a rest until next Friday night when they will tackle the Fort Scott Tigers on the latter's court.

### NOTES FROM MIAMI-PITTSBURG CONTEST

The Hoffman quintet looked plenty classy as they pranced down the gym in rhythm with the "ahs" of the crowd. Last Tuesday night. This was their first home appearance with their new purple and white satin uniforms.

It would almost be a safe wager to bet that Bob Weir of Miami is a marksman. He sank a lot of shots from the middle of the floor.

N. A. Keithly, star basketball as well as football player, was viewing the game from the side line due to football injuries.

Nine out of the fifteen suited up Dragons saw service. All but one of the Wardog team played in the game.

George Allen, referee of the battle, seemed to be quite small running around on the court with the towering boys of both teams, but took care of himself and most of the players when the rough stuff came in. George is one swell fellow and a good referee.

## AMATEUR NOTES

If you attended the Columbus football game Thanksgiving day, no doubt you heard the high school swing band, composed of 22 pieces and under the direction of Paul Cummins, play between halves. The maestro reports that the band will make all the Titan basketball trips.

Fort Scott high school will be presented with a new football stadium next year, it was announced in the Greyhound-Tiger News recently. It will seat 2,500 persons and will have lockers and showers beneath it. The new stadium will place the wooden one now situated on the west side of the field.

At a recent intramural game, with yours truly attempting to referee, a foul was called which the crowd didn't seem to think was right. A sound of irritating noises such as you might hear at a wrestling match, descended upon the sports writer. Blushing a beet red, stuttering the cause of the foul and gulping sheepishly he turned to Coach Snodgrass nearby and muttered, "I told you this would come to no good."

Much credit must be given to F. M. Snodgrass and the sponsors of the intramural groups this year. The sponsors of these teams spend much of their needed time with their teams.

Tom Loftus, comedian of the high school, in all his high school football competition has never been hurt. But last week while playing touch football behind the signboards at Twentieth and Broadway with some of the neighborhood boys, Tommy was attempting to catch one of "Doc" Strahan's bullet passes when Fred (Killer) Schiefelbein tried to intercept it; and result was a "busted" hand.

Loftus went to a doctor, who said he shouldn't fight in the Golden Gloves tournament in which the ex-football player is entered. But Tommy still insists that he will. So what have you?

A certificate of recognition was recently sent to Marion A. Nation, granted by the United States Sesqui-centennial committee, for the Constitution Day program given Sept. 17, under the direction of the D. A. R. These certificates were sent to all the schools who had similar programs.

At the beginning of the fourth hour Monday, all the sophomores met in the auditorium to see a picture on posture. The picture lasted fifteen minutes. One of the girl's gym classes will soon make posture posters as their projects, Miss Lanyon recently reported.

### PEP CLUBBERS PLAN NEW STUNT

De Wayne Turner recently introduced and explained his plan for a new stunt for the pep club. Each member will hold a large card in front of him. On each card will be part of a letter. The whole group of cards will complete a yell in large, prominent letters.

This has never before been done in a high school, so far as is known, because it is too hard to perfect. However, it is done in large colleges all over the country.

If this proves to be a success it will add a great deal to the showmanship of the pep club. Watch for it at the basketball games.

### To Choose Nominees

## Hoffman Quintet Open New Season With 48-16 Win

**Dragons Triumph over Quapaw In First Game of New Hoop Series**

**Score 23-9 at Half**  
Ryan, Fidler, and Begando Lead Attack in Victory Over Oklahomans

The Pittsburg high school Dragons inaugurated the 1937-38 basketball season with a decisive 48-16 victory over a Quapaw high school five, last Friday night on the losers' court.

Leading the attack for the home team were Edwin Ryan with ten points, Bud Fidler with eight, and Joe Begando with nine. Bill Lawrence, John Lance, and Waymon Edwards also played important parts.

The Dragon five jumped into an early lead and the Oklahomans never threatened thereafter. Although during the third quarter, the locals were held to three points and the losers to two. In the last stanza the purple shirts put on the steam and stretched the score into a 32-point lead before the bell sounded, ending the game.

With the intention of playing only one game, Coach Hoffman took only nine players, but on arriving, he was informed that a reserve game was to be played. With only four reserves on hand, "Arkie" suited up James Zimmerman, six foot-three inch tackle of the football team and driver of one of the cars, to play the vacant position. The reserves won their game 52-3.
