Pan American Overture

PAN-AMERICAN OVERTURE was commissioned by the Clarence High School Bands, Clarence NY. This overture by Canisius College Composer-In-Residence Persis Parshall Vehar was premiered on April 6, 2001 by the Clarence High School Symphonic Band, Louis Vitello, Conductor, in Kleinhans Music Hall, Buffalo NY. PAN-AMERICAN OVERTURE was written in celebration of the centennial of the Pan-American Exposition, which was held in Buffalo, New York.

The overture opens with a fanfare introduction in B-flat Major which serves as transitional material to unify the work. In measure 15, the trumpets state the first theme based on an anonymous Native American (Omaha) "love call" in lydian mode (on B-flat). This mixed-metered "love call" was written c. 1900-1901. The trombones overlap the trumpets in measure 23 and repeat the "love call" in answer. "Love Calls" were written by Native Americans as courtship signals to their sweethearts and revealed the player's identity because each young person sang or played their own individual melody.

In measure 31, material from the introductory fanfare leads into second theme material in E-flat major using African and Latino rhythms. The second theme melody in 4/4 meter utilizes Afro-Cuban rhythms followed by percussion rhythms in 6/8 meter based on the "nañigo."

The transitional fanfare again leads into the last theme in B-flat major. This hymnlike theme represents the religious songs sung by the early European settlers in the Americas.

At measure 76, the three diverse themes representing Native American, African, Latino and European influences come together symbolically to end the PAN-AMERICAN OVERTURE.

The 1901 Pan-American Exposition in Western New York had pavilions representing all these peoples and served to provide understanding between the diverse groups who comprised the Americas. At the beginning of a new millennium in 2001, this Pan-American Overture is a musical reiteration further supporting this unifying concept in celebration of the One-hundredth Anniversary of the Pan-American Exposition.

An Affirmation of Purpose

An Affirmation of Purpose was written as an expression of cosmic appreciation for my liberation from teaching for 8 years at Sam Houston State University and many prisons that characterize Huntsville, Texas. The music presents three related melodic/harmonic motifs that are developed through various techniques of expansion and contraction of all musical elements. Psychological and functional "relief" and resolution motivate all aspects of the music.
