A booming megalopolis, Spit Valve is the recreation center of the mythical old west. Located on the shores of the mighty Spittoon Creek, the Valve serves as the cultural mecca for the area.

From the time the first white settlers came to the area, Spit Valve has been a scene of violent confrontations. The Indians fought from every cacti and sagebrush. Many a great warrior fell to the fierce blue coats. During the Civil War it saw the great western battles of the desert wilderness campaign and the opening shots on Fort Subtracter. This wide open town has also been the sight of several local gun battles. Wyatt Burp shot it out in the 'I'm ok, you're ok corral'. Billy the Goat was gunned in the town square.

It is the legacy of these pioneering types that has made Spit Valve great. Truly this is 'a town for the entire family'.
