

Captain Purma

Captain Purma who has been the star weight man of the college for three years was at his best last year when at the state meet he put the shot 44 feet 9 $\frac{3}{4}$ inches for a new state record. The former record of 42 feet 10 inches had stood for ten years.

THE KANZA 1924

Small of stature Fowler surprises everyone by his wonderful spring and although the shortest man in the event last year, yet he was able to land first place on a wet field with a spring of 5 feet 10 1-8 inches. The former record had been held by Coach Lance.

HUGH FOWLER

L. W. PARSONS

The pole vault event in dual meets was ably handled by Parsons who was competing for his first year.

ARTHUR BARLOW

Barlow had a good year at the quarter mile and broad jump through all our dual meets and was never beaten by an opponent but was hurt in jumping for a new school record of 22 feet 1 1-2 inches in the Haskell meet and was unable to do himself justice in the state meet.

When it comes to half milers Snodgrass has no equal in the state as was demonstrated last year when he won first place in the Kansas State meet and by so doing established a new K. S. T. C. record.

FRANCIS SNODGRASS

The quarter-mile, half-mile and relay events have had a yeoman worker in Rondelli who this spring is competing for the last time for K. S. T. C. and gives promise of his best performances.

JOE RONDELLI

BRYAN HOOPER

Hooper hails from Thomas, Okla., and as a first year man was a star man for K. S. T. C. in the sprints and relay races. He tied the 100-yard dash school record and before he leaves college the 200-yard record should also be his.

THE KANZA 1924

Captain Purma competed in both the Kansas and Drake relay games and while he was not up to form at Kansas where he placed only third, yet he brought honor to the college the following week at Drake where he put the shot first place, defeating the same fellows who had beaten him in Kansas.

Fowler placed fourth in the Kansas relay high jump, his jump being a new K. S. T. C. record at 6 feet even.

Our relay boys at Kansas drew 18th place and had to start the race outside the bounds of the track but despite this handicap placed fourth. In this event they were matched with the best teams of the country. The event was won by Occidental College of California.

The season has dual meets yet to be run against Drury college and the Emporia Teachers.

Our track team in 1923 placed second among sixteen colleges at the Kansas State meet and this year should do as well, and many predict that with an even break on luck we may noose out the Emporia Teachers and be returned the 1924 champions.

The following men are winning points in the dual meets and are those upon whom Coaches Weede and Lance count for honors at the state meet:

Sprints—Bryan Hooper, Moyle Skaer.

Middle Distances—Francis Snodgrass, Arthur Barlow, Joe Rondelli, Sam Kirby, Frank Campbell.

Long distances—Fed Axtell, James Allen, John Snodgrass.

Jumps—Hugh Fowler, Arthur Barlow, Moyle Skaer, Dale Skelton, Charles Purma.

Weights—Charles Purma, Dale Skelton, Leo Folck.
