

# Administration . . . .

**Dr. Denmar Cope**

Dr. Cope joined the College staff this year as assistant to the President and Dean of Students. As advisor to the Student Council he is responsible for the coordination of student life and has done an excellent job. Before assuming this position, he was assistant Professor and Director of the Business Placement Bureau at Kansas University.

**Dr. Ernest Mahan**

As a colleague of his said, "This man knows his job," and we are inclined to say the same. Dr. Mahan, as Dean of Instruction, is responsible for the curricula offered to students by Pitt. He has capably served us for 28 years.

**Dr. Mary Moore**

Another new face among this year's administration is Dr. Moore, Dean of Women, whose friendly smile always adds light to the atmosphere wherever she appears. Counseling and personal advising are her main duties. Before completing her doctorate work last year at Indiana University, she held position as Counselor of Women at Harpur College, Endicott, New York.

**Dr. Ralph W. Wright**

A student interview during his daily work is nothing extraordinary for Dr. Wright, Dean of men. His friendliness has won for him the friendship of all with whom he has worked the past 9 years.

## they hold reins

**Dr. Clyde Baird**

Drop cards, add cards, class cards, enrollment cards, schedules, catalogues, transcripts, all form a year-around job for Dr. Baird, Director of Admissions and Registrar, now serving K.S.T.C. for the eleventh year. He has successfully smoothed registration.

**Dr. Lester Tracy, Jr.**

Now serving his second year as Director of Field Services and Placement Bureau, his work consists mainly in securing employment for present and former students of K.S.T.C. Dr. Tracy served 5 years as Director in the Placement Bureau before assuming present status.

**Clifford Beougher**

Making ends meet is a time-consuming process for Mr. Beougher, Comptroller, who is new on the Administration. Through his hands passes the money of the College. One of the school's most unseen men, and one of the College's most important. Formerly from Kansas State College in Manhattan, where he held the position of Assistant Comptroller and Budget Officer.

**Dr. Paul Dixon**

The prospect of summer coming means only more work for Dr. Dixon, Director of Summer Session, and Coordinator of Secondary Education, now with us since 1950.

**Lemoine Carlyon—M.S.**

The maintenance of the physical plant of the College is under the guidance of Mr. Carlyon, Plant Superintendent, very capably serving Pitt since 1946.
