Dear Faculty:

On behalf of the Library Services faculty and staff, I want to welcome each of you to Pittsburg State University. It is a goal of Library Services to help make your teaching and research experiences at Pittsburg State as rewarding and successful as possible. We look forward to working with you in the days and years ahead.

Library Services, whether in Leonard H. Axe Library, or the Kansas Technology Center Library, is committed to providing innovative and learner-centered environments that will help our students to be successful, support the research and information needs of our campus and community library users, and enhance the overall University experience. We offer one-on-one research assistance; online reference services; remote access to our databases, e-books, and digital archives; web-based research guides; and instructional programs to support any course the University offers. Recent Library innovations include the implementation of our new online catalog; staff to support and assist with OER course content; collaborations with various faculty members on digital humanities projects; and the implementation of Digital Commons, a new institutional repository for digitized academic, scholarly, and creative materials produced by Pittsburg State faculty, staff, and students, that will give your scholarship a world-wide audience.

Library Services is also home to the Student Success Center, the Writing Center, the Gorilla Geeks help desk, and the food and beverage services provided by Sodexo at the Axe Grind coffee shop. The Library provides free access to touch-screen scanning; large screen monitors located at collaboration work stations; online reservations for group-study and collaborative rooms; interactive projection technology; and many other services.

Five additional group-study and collaboration rooms were added to Axe Library this summer that include new spaces and equipment for audio and video recording, green-screen filming, and other media production and editing projects.

We invite you to make use of Library Services and we wish for you a successful academic year.

Sincerely yours,

Randy Roberts
